## PRESENTATION OF THE ASSOCIATION

The TIFAOUINE Association for Development is a dynamic and committed organization dedicated to the well-being and progress of local communities. Founded on the values of solidarity, sharing, and sustainable development, it works in several key areas essential for individual and collective growth.

With a motivated team and collaboration with various local and international partners, the TIFAOUINE Association for Development serves as a catalyst for social transformation and a driver of sustainable development within its community.

### Fields of activity:

- Education
- Sport
- Health
- Culture
- Sustainable development

## OUR ACTIVITIES

- ✔ Medical caravans
- ✔ First aid training for women
- ✔ Distribution of food supplies to those in need
- ✔ Assistance to individuals during illness
- ✔ Organization of educational and cultural events for women and children
- ✔ Purchase of an equipped ambulance
- ✔ Organization of sports activities
- ✔ Surgeries

## THE PROJECT

The socio-cultural complex aims to provide a welcoming, educational, and enriching space for women and children. Its mission is to foster personal growth, community solidarity, and skill development through a variety of activities.

## PROJECT BACKGROUND

Rural villages often suffer from a lack of adequate infrastructure for women and children, limiting access to education, training, healthcare, and leisure activities. This project aims to address these gaps by creating an inclusive and functional space.

## TARGET POPULATION

- Women ;
- Children;
- Persons with disabilities;
- Youth.

## WHY THIS PROJECT

Building a socio-cultural complex for women and children addresses essential needs for empowerment, education, and well-being. Such a space would provide women with access to professional training, personal development activities, and support services, promoting their autonomy and active participation in social and economic life.

For children, the complex would offer an educational and recreational environment where they can thrive through creative, sports, and cultural activities, while facilitating their learning. Moreover, this project fosters social inclusion by creating a space for intergenerational interactions and exchanges, while reducing inequalities.

It also contributes to preserving and passing on cultural heritage through dedicated workshops and events. Additionally, the complex would play a key role in supporting vulnerable families and stimulating the local economy by creating jobs and opportunities for women entrepreneurs.

This project aligns with a holistic approach to sustainable and inclusive development.

## DEFINITION OF THE FUNCTIONS OF THE COMPLEX

### 1. Education :

- A library with age-appropriate books.
- A multimedia room equipped with computers and internet access.
- Training rooms for literacy, crafts, sewing, etc.

### 2. Health:

- UA clinic or consultation center for women and children.
- Awareness workshops on hygiene, nutrition, etc.

### 3. Leisure and Culture:

- A multifunctional room for events (theater, dance, film screenings)

### 4. Social and Administrative Space:

- A meeting room for organizing discussions and community workshops.
- An office for administrative management and social services.

## MAIN OBJECTIVES OF THE PROJECT

### 1. Empowerment of Women:

- Promote their personal and professional development.
- Offer training in practical skills (crafts, computer science, entrepreneurship).

### 2. Support for Children:

- Encourage education and creativity through fun and educational activities.
- Provide tutoring programs and artistic workshops.

### 3. Strengthening Links for People with Disabilities: :

- Organize community events (exhibitions, cultural festivals).
- Create spaces for intergenerational dialogue.
- Facilitate access to socio-cultural activities to enhance their active participation.

### 4. Youth Activities:

- Develop personal, educational, and professional skills.
- Foster social relationships and community integration.
- Organize sports activities.

## TECHNICAL AND ARCHITECTURAL STUDY

### INSPIRATION

The project is inspired by the traditional architecture of the kasbahs in southeastern Morocco. Its crenellated towers and facades adorned with local geometric patterns blend harmoniously with the surrounding landscape.

### SURFACE AREA

17 Meters

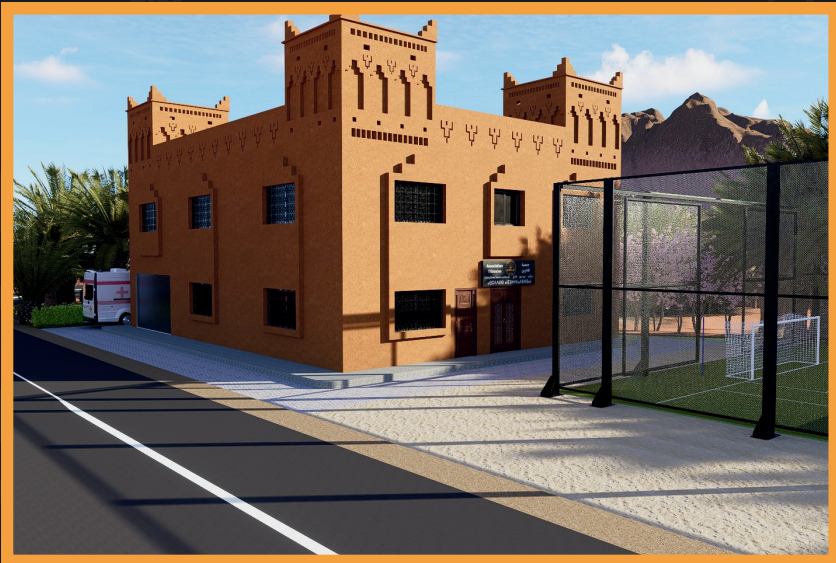

13 Meters

**221 M<sup>2</sup>**
