

Izonzi Kolaki Ta Success Story: From 21 Chicks to Confident Leaders

On 4 November 2025, Amani Transformational Foundation (ATF) supported five young women from Inzonzi Kolaki Ta in Moyo District with 21 chicks to help them build practical livelihood skills and independence.

Before the support, the girls were actively engaged in mentorship and healing sessions but lacked a practical way to apply what they were learning. The donation came at a critical moment and immediately inspired pride, responsibility and teamwork. The group organised feeding schedules, shared roles and jointly monitored the chicks' health. Today, the chicks are thriving—and so are the young women. They report stronger confidence, better communication and a clear vision to reinvest the income from the project in the future.

What began as a small donation has become a powerful platform for leadership, unity and economic empowerment. For the five members of Inzonzi Kolakita, the 21 chicks represent trust, renewed hope and a pathway toward self-reliance.
