## **PREFACE**

### **About Us**

Asaasiam means the act of transforming/impacting lives. Asaasiam Vision International (AVI) is a Ghanaian registered nongovernmental organization established in 2012. AVI is committed to promoting sustainable impacts on Children, Women, Families, and the Environment. Our goal is to promote a sustainable impact on children, women, and the environment, and alleviate illiteracy among impoverished and disabled youth in Ghana. Our vision is to make the world a better place for all through the alleviation of illiteracy, poverty and the promotion of a sustainable environment.

### **About the Let Girls Excel Africa Project**

The project seeks to raise \$6000 to help keep 20 needy Ghanaian schoolgirls, ages 11-18, in school by assisting them with paying for basic costs, including enrollment expenses, books, backpacks, footwear, sanitary pads, and boarding. The project also offers health and sexual education, leadership, coaching, mentorship support, career guidance and a special climate education to equip the selected girls with the skills needed to promote sustainable environment. Most girls in deprived communities in Ghana cannot afford the cost of accessing quality education and lack access to leadership training, coaching, and mentorship. These girls come from poor families, and without your support, they will have no better education/future.

### Activities Undertaken

The AVI Let Girls Excel Africa Project launched a fundraising campaign project on GlobalGiving in April 2025 to raise \$6000 to support 20 needy schoolgirls education in Ghana. Currently, the project has raised \$305, which has been sent by GlobalGiving and received in the account of AVI in Ghana.

The Let Girls' Excel Africa project has achieved a significant milestone with the successful enrolment of six girls, in school and provision of continuous educational support, made possible through the generous support of our donors.

### Opportunities Created

This opportunity has opened doors for these young girls to access quality education and build confidence to pursue their dreams. The programme has not only transformed their individual lives but also inspired their families and community to value girls' education and empowerment more deeply. These six girls now stand as shining examples of what can be achieved when compassionate donors invest in the future of young women.

## **A Special Thank You**

We would like to express our gratitude to all who contributed to the donation of \$305 that enabled us to commence the project with the six girls.

We would also like to say a special thank you to GlobalGiving for this great opportunity to support these promising and brilliant girls.

We kindly urge our donors to continue to support the program, enabling us to extend this life-changing program to many more girls, helping to break cycles of poverty and inequality through education and empowerment.

Thank you very much!
