

# Comprehensive Sexual Education Stopping New HIV Infections

## **Youth Education to Prevent HIV and Transform Futures**

**At La Casa de la Sal, we believe that when adolescents and youth receive accurate information and safe spaces for dialogue, they become agents of change in their communities.**

**During this reporting period, our team continued implementing educational workshops focused on HIV prevention, sexual health, and healthy relationships among adolescents and young people.**

**Through interactive and participatory sessions, we reached students in schools and university spaces, creating environments where young people could ask questions freely**

## Transforming Perspectives

One of the most valuable aspects of these workshops is the opportunity for young people to openly discuss topics that are often surrounded by silence or misinformation.

**Together, we can ensure  
that every young person has  
the right to learn, decide,  
and thrive.”**

# Thank you!
