NEED ASSESSMENT FORM/SITUATION ANALYSIS FORM

FILL the following questionnaires with much information as needed.

1. Please give the project details including benefiting district, sub county and village/cell
District..... BUTERBO Subcounty..... KANGINIMA slc
village..... DODDI

1.1 Beneficiary representative details

Name of person given in Land for water

well..... DOIE ARAFAT

Tell:..... 0703 53 25 04

Name of Neighbor where water well is

dug..... KAGWA NDUNYA

Tell:..... 0706 24 31 74

Email:..... —

Coordinates:..... 1:20.0°N, 33:9.17°E

2. What are the economic activities carried out by the people within this proposed locality?

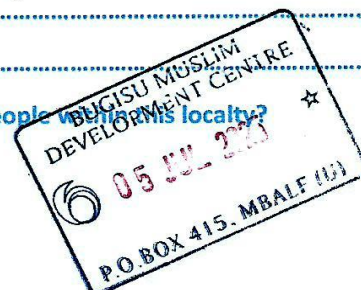

Farming

Trading (Business)

Poultry Keeping

Block Laying

3. What is the current problem facing the people in this locality?

Poor Road Network
Poverty
Lack of clean water
Hunger

4. If water problem, what is the current source of water in the area?

Ponds
swamps

5. What is the distance of the nearest water source by the surrounding households?

4. KILOMETERS

6. How many people benefit from the current water source?

1445 ~~989~~ Beneficiaries

7. Is the current water source, a shallow well or deep well/borehole? If not any of these please elaborate what is it?

Swampy water sources

8. What do you think could be done to alleviate the current situation?

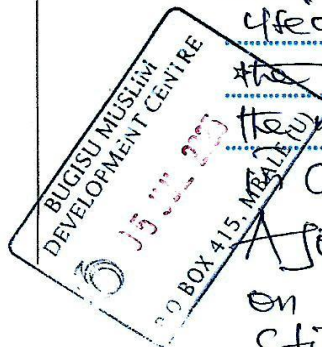

Extension of Borehole water

BMDC COMMENT.

DODOI Village is situated at the extremities of BUTEMBO DISTRICT with a population estimate of about 1445 residents. The village is known for Black laying, poultry farming as their source of income generating activities. The area is majorly affected by a water scarcity challenge which has retarded all these economic activities. People in this village go a long distance to access clean water which is about 4km. Near by source of water is unsafe for human consumption and this has subjected residents to water borne related diseases. The finding clearly proves that there is ~~need~~ need to extend a fresh water well in this village.
