“Ensuring that no one is left behind in the pursuit of a better life.”

Pressing issue: a dual crisis of conflict, drought and floods

Ethiopia faces a catastrophic humanitarian emergency where:

- ✓ **Conflict** in Oromia, Amhara, and Tigray has displaced **3.5 million people**, destroyed homes, and disrupted supply chains.
- ✓ **Floods** in Somali Region have contaminated water sources, drowning crops and spreading disease.
- ✓ Women and children sleep in open areas, lack food, and drink unsafe water, leading to:
 - **Acute malnutrition** (30% of children under 5).
 - **Cholera outbreaks** from contaminated water (5,000+ cases reported in 2024).
 - **Gender-based violence risks** in overcrowded settlements.

Over all crisis, real-time data and challenge

- ✓ **3.5 million+** displaced by conflict and natural disasters in 2024 (UN OCHA)
- ✓ **70% lack shelter, 80% face food and water insecurity**
- ✓ **Cholera outbreaks:** Over 5,000 cases due to water contamination
- ✓ **72% of IDPs are women and children**

(Sources: NODRO Field Reports, UN OCHA): which NODRO has identified these critical needs from field reports and coordination with regional Disaster Risk Management offices (DRMO).

Why This Matters

Without rapid response:

- ✓ **15,000+ children may die** from malnutrition (UNICEF projection)
- ✓ **Recurring floods** will continue to devastate lives
- ✓ **Preventable diseases** will escalate without safe water and sanitation

A \$50 donation can shelter a family and give them clean water for 12 months.

Potential short term and Long-Term Impact in comparison

Short-Term (0–6 months)	Long-Term (1–3 years)
20,000 families sheltered	Reduced displacement cycles
300,000 with clean water	Lower disease burden (WHO targets met)
10,000 households financially stable	Women-led micro-businesses established
Metric: 30% malnutrition drop	Metric: 50% school re-enrollment rise

Long-Term Impact in monthly distribution

Short-Term (0–6 months):

- ✓ 20,000 households sheltered
- ✓ 300,000 individuals with clean water
- ✓ 10,000 households stabilized through cash support

Long-Term (12 months):

- ✓ 30% reduction in child malnutrition
- ✓ 40% decrease in waterborne diseases
- ✓ 50% rise in school re-enrollment
- ✓ 500 Women-led small businesses emerge from MPCA funds

Sustainability:

Partnering with regional DRM offices ensures local ownership. Past projects (e.g., "409 Days of Water Crisis") show 80% of water points remain functional post-aid.
