

Project #69687

Project Progress and Impact Report

Your Gift = Life-Saving Hepatitis Care

Dear Supporter

Because of your generosity, the **Moses Welfare Foundation** continues to fight one of Pakistan's most pressing health **challenges—hepatitis B & C**. Your compassion is saving lives, restoring dignity, and helping us build a healthier future for communities that have long been neglected.

A Historical Perspective

Since its founding in **1948**, the **World Health Organization (WHO)** has led the global effort to protect public health. In 2016, WHO declared hepatitis a **major global threat** and called on nations to work toward **eliminating the disease by 2030**.

Pakistan faces one of the **highest burdens of hepatitis in the world**. Millions live in rural villages without access to doctors, medicines, or clean water. Historically, brick kiln workers and daily-wage families have been trapped in cycles of poverty and illness, with no path to diagnosis or treatment. Without urgent intervention, these communities risk becoming **lost generations**.

Project Progress

Thanks to your support, our foundation is aligning with WHO's vision—bringing healthcare to the very heart of Pakistan's forgotten villages. In the last quarter alone, you helped us:

Screen 1,200 people for hepatitis B & C

Provide treatment and medicines to 460 patients

Deliver 300 food packs to families to support recovery

Conduct awareness sessions to teach prevention and early care

Impact Story

At one of our medical camps, we met **Shazia**, a 32-year-old mother of three. For months, she battled weakness and pain, fearing she would not live to raise her children. With your help, she was screened, diagnosed, and placed on free treatment. She told us: *“I thought I was forgotten. Now I have hope for my life and my children’s future.”*

Thanks to your generosity, the Moses Welfare Foundation is creating measurable change in communities that were once forgotten:

Lives Saved: Over **1,200 individuals** screened, with **460 patients** placed on treatment, reducing the risk of liver failure and early death.

Health Restored: **300 families** received **nutrition packs**, ensuring patients gain the strength to recover fully.

Awareness Raised: Hundreds of villagers participated in **education sessions**, empowering them to prevent the spread of hepatitis.

Cycle of Poverty Broken: Families once burdened by illness can now return to work, school, and daily life with dignity.

Beyond numbers, the true impact is seen in stories like **Shazia's**, a young mother who believed she would die from hepatitis C. Today, because of your support, she is recovering, caring for her children again, and living with renewed hope. Your gift is not only providing treatment—it is restoring **health, dignity, and opportunity** for entire communities. Together, we are building the foundation for a **healthier, stronger Pakistan**.

Accountability

At the **Moses Welfare Foundation**, we believe every gift entrusted to us is a responsibility to be managed with integrity, transparency, and impact. Your donations are carefully allocated to ensure they directly reach those in need.

Use of Funds

- 40% – Free Medical Camps & Screenings
- 30% – Medicines & Treatment for Hepatitis Patients
- 15% – Nutrition & Food Support
- 10% – Development of a Permanent Medical Center
- 5% – Awareness & Community Outreach

Transparency & Reporting

- All expenses are documented and audited in compliance with government regulations.
- Regular progress and financial updates are shared with donors through GlobalGiving.
- Impact is measured not only in numbers but also in **stories of lives transformed**.

By maintaining accountability, we assure you that **your generosity directly saves lives**. Every test, every medicine, every food pack delivered is a result of your gift.

Looking Ahead

Our vision is to establish a **Permanent Medical Center**—a lasting institution for screenings, treatment, and education. With your continued support, and our goal of **\$150,000**, we will ensure sustainable healthcare for generations to come.

With Gratitude

Dear donor, you are the reason lives are being saved. Together, we are breaking the cycle of illness and poverty—bringing healing, dignity, and hope to Pakistan’s most vulnerable families.

**With appreciation,
The Moses Welfare Foundation Team**
