

Restore Critical Eye Care for Aging in NW Cameroon

Location: North West
Region in Cameroon

Duration: 18 Months

Organization:
Regional Centre for the
welfare of the Ageing
Persons in Cameroon
(RECEWAPEC)

Who We Help

Elderly individuals (age: 60+)
facing limited access in rural
Tubah Subdivision, NW
Cameroon.

Expected Impact

- Deliver **2,000–3,000** services for **1,000+** elders.
- Achieve **80%** improved vision for treated individuals.
- Foster greater independence, reduced disability & improved well-being for the elderly.
- Establish a sustainable eye care model for the region.

What We'll Do

- **Rebuild:** Renovate our center; Equip it with essential medical tools.
- **Staff:** Recruit & train 10 local eye care professionals.
- **Serve:** Provide eye exams & treatments for 1,000+ elders.
- **Outreach:** Launch mobile clinics to reach remote patients.
- **Educate:** Empower communities with vital eye health knowledge.

Why Your Support is Crucial

- **Direct Impact:** Your gift directly restores sight and hope to vulnerable elders in a conflict zone.
- **Urgent Need:** You address a critical, neglected crisis for a population facing preventable blindness.
- **Lasting Change:** We build sustainable eye care with local staff and long-term solutions.

Your generosity brings the invaluable gift of sight to Cameroon's aging population.
Thank you for your support!
