1. Executive Summary

The **TAJPI Volunteer Sponsorship Project** removes financial barriers for committed individuals who wish to volunteer in Tanzania but cannot afford program costs. Your support as a donor will enable us to provide full or partial sponsorships to selected volunteers from around the world, empowering them to contribute to grassroots development across four sectors: **Education, Environmental Conservation, Healthcare, and Community Development.**

Sponsoring a volunteer builds skills, supports underserved communities, and creates a ripple effect of sustainable change in Arusha.

2. Background
