EXECUTIVE SUMMARY

Life Aglow For Children Foundation seeks support to help 3,800 children who have lost their homes and access to education due to severe flooding. This project aims to provide temporary shelter, restore access to education, offer balanced meals, and deliver basic healthcare. With the help of donors and partners, this intervention will bring immediate relief and foster long-term community resilience and development.

PROBLEM STATEMENT

Thousands of children across flood-affected areas have been displaced from their homes, schools, and normal lives. Many live in makeshift shelters without food, clean water, medical care, or learning materials. These 3,800 vulnerable children are at risk of disease, malnutrition, trauma, and educational loss. Without intervention, the effects will last a lifetime.

PROJECT GOALS & OBJECTIVES

Goal: To restore hope, health, and learning opportunities for 3,800 vulnerable and flood-displaced children.

Objectives:

1. Provide temporary shelters with safety and Education
2. Supply nutritious meals to 3,800 children daily.
