Sociedad Pro Hospital del Niño

de Puerto Rico

100 years of uninterrupted service to the pediatric population of Puerto Rico

- Sociedad Pro Hospital del Niño is a non-profit institution founded in 1924.
- We operate the only Pediatric Skilled Nursing Home (Casa de Salud) in Puerto Rico, providing long-term and convalescent care for children ages 0 to 21 who are referred and under the custody of the Department of Family Services.
- In addition to our residential care, we operate two high-impact community programs:
 - Therapeutic Services: In collaboration with the Departments of Health and Education
 - Centro de Aprendizaje del Niño (CAN): Serving children with autism spectrum disorders (levels 1 and 2), sensory processing challenges, speech and language delays, and learning disabilities.

Historical Background

- **1924:** The Society for the Prevention of Tuberculosis in Children is founded under the leadership of Dr. José Rodríguez Pastor.
- **1929:** The first phase of the building that now houses our facilities was constructed, then known as “El Preventorio de Guaynabo.”
- **1964:** The institution is renamed Sociedad Pro Hospital del Niño, incorporating medical resources and equipment.

Sociedad Pro Hospital del Niño

de Puerto Rico

Our goal is to ensure the health and well-being of our patients.

- Our mission is to support the rehabilitation of children and youth with physical and/or mental disabilities.
- With a vision to continue expanding our services with a focus on the rehabilitation and social integration of children with disabilities.

Casa de Salud

- The only **Pediatric Skill Nursing Home** in Puerto Rico that provides long-term care and convalescence services to children and youth ages 0 to 21 under the custody of the Department of the Family.
- We offer a safe, therapeutic, and highly specialized environment designed to meet the complexity of their medical and emotional needs.
- **Currently, we serve 22 resident patients**, ranging in age from 7 months to 21 years, with chronic and permanent health conditions.

Centro de Aprendizaje del Niño

- An **elementary school** focused on serving students diagnosed with Autism Spectrum Disorder (levels 1 and 2), as well as language, sensory, learning, and social communication challenges.
- We provide an integrated education model with therapeutic services, aimed at supporting academic, social, behavioral, and communication development.
- We have a confirmed enrollment of **94 children for the 2025–2026 school year.**

Outpatient Therapy Services

- Offered privately and through contracts with the **Puerto Rico Department of Health and the Department of Education**.
- We offer a wide range of therapy modalities: physical, speech, oromotor, occupational, and psychological.
- Nearly **600 children from 0 to 3 years old** participate in the Department of Health's Early Intervention program, “Avanzando Juntos”.
- In addition, around **2,000 children between the ages of 4 and 21** receive services through the Department of Education’s program in the regions of Bayamón, Caguas, Morovis, San Juan, and Humacao.

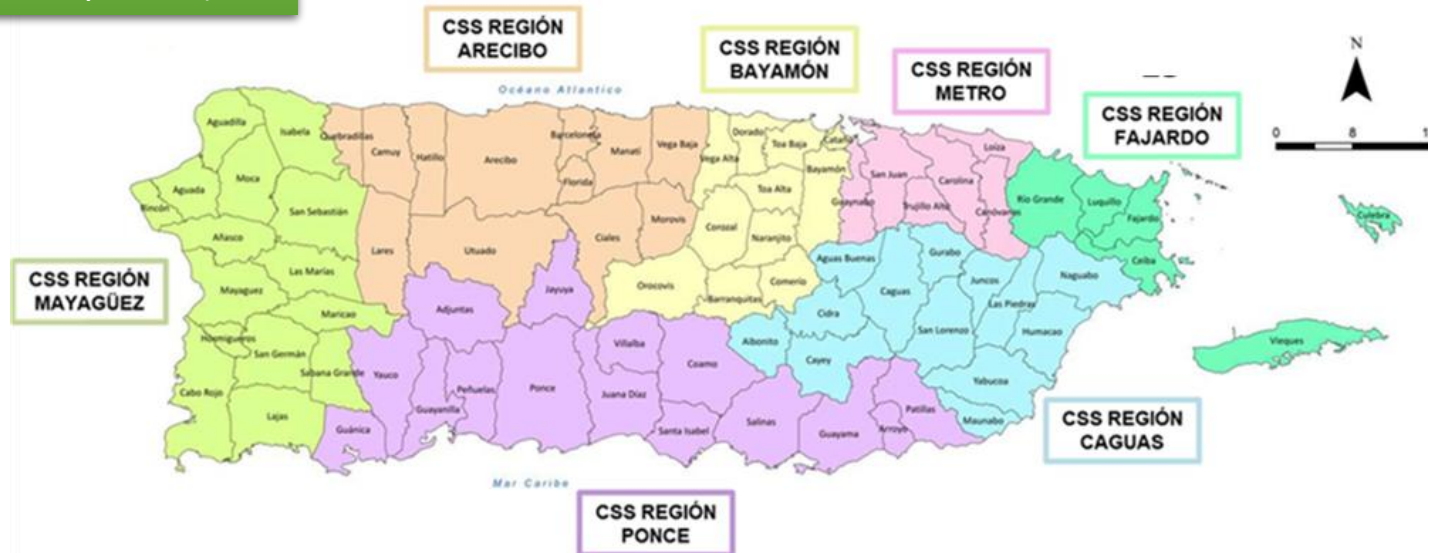

Sociedad Pro Hospital del Niño

de Puerto Rico

We provided 93,636 therapeutic services during fiscal year '24-'25

7,856 services through the Department of Health (-8.7% compared to the year '23)*

85,780 services through the Department of Education (+9.7% compared to the year '23)

*debido a la reducción en la natalidad. Según datos oficiales, se registró alrededor de -40% desde el 2015)

Sociedad Pro Hospital del Niño
