## 2 Rehabilitation:

We offer temporary accommodation, nutritious meals, catch-up education, holistic healthcare, counselling, emotional and spiritual nourishment for the child.

## 3 Reconciliation

We conduct family tracing and reconciliation to resolve any issues that caused family separation, and ensure that every child is placed in a safe and loving family/ community.

## 4 Reintegration:

Successful reconciliation leads to sustainable resettlement including connecting the child to existing social networks within their community and regular monitoring visits. Children whose families we fail to trace or assess

## 5 Family Empowerment:

We work alongside the family of the resettled children to achieve sustainability after resettlement through linkages to existing local social, and economic networks, positive parenting and child protection training. We support the most vulnerable families with income generating inputs and training to strengthen the economic situation of the family to meet the basic needs of the home.
