

Hello Ikechukwu,

Congratulations! Empower Future Initiative has been approved to be a Coursera Social Impact Partner.

Your acceptance of a partnership with Coursera includes a donation of - Licenses (x500) for the first year, with consideration to increase the number of licenses in the future. The next step is to execute a legal agreement via DocuSign. This agreement uses our standard Enterprise terms, but please take note of Section 11 (highlighted in yellow), which makes some modifications to the Enterprise terms for our Social Impact license donation partners. After your organization signs the legal agreement, and it is signed on our end, we can complete the agreement process.

Please have your signatory look for an email from DocuSign in the coming weeks where they will be able to review and sign. We look forward to working together!

Sincerely,

Coursera Social Impact
