# NEWS

## Afesu

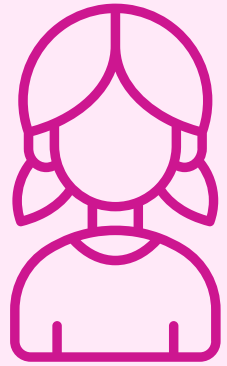

In May, Afesu launched its 2025 Activity Report, presenting the main results and impacts achieved throughout the year. The publication reinforces the organization's commitment to transparency and accountability to partners and supporters.

# Our opportunities for learning

From basic education to professional training, Afesu offers learning opportunities at different stages of the beneficiaries' educational journey.

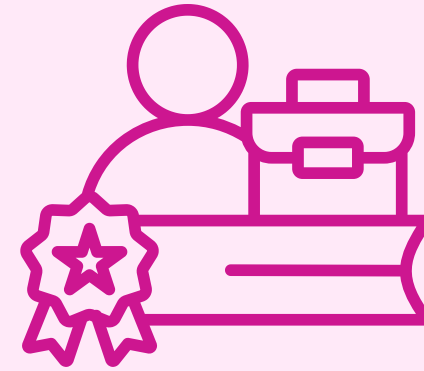

## Academic Support (7–13 Years Old)

Learning Recovery;  
Basic Technology;  
Management and  
Technology.

## Technology (14–17 Years Old)

Applied Technology  
Web Development

## Professional Training (14–17 Years Old)

Administrative  
Management  
Reception and  
Customer Service  
Entrepreneurship  
First Job  
Administration  
Technician

## Technical Courses (18–25 Years Old)

Gastronomy  
Nursing

Throughout the second quarter of 2026, we continued to strengthen our work through initiatives that expanded opportunities for beneficiaries and brought Afesu closer to partners, volunteers, and the community.

In this report, we bring together the main highlights of the period, showcasing institutional events and initiatives that helped expand our impact and strengthen our mission of transforming lives through education.

# Trengthening Partnerships

Talk at Veleiros Afesu Unit with Porto Seguro

Visit to Advent's office

Young Chefs Program with Ajinomoto

# Experiences that broaden horizons

## #Access to Culture

Throughout the second quarter, beneficiaries took part in cultural experiences that complemented their education and expanded their contact with different languages, histories, and perspectives. The Veleiros and Morro Velho groups visited the Museum of the Portuguese Language, deepening their knowledge of language, communication, and Brazilian cultural diversity. Moinho beneficiaries visited the Jewish Museum, in an activity that encouraged reflection on memory, identity, culture, and respect for differences.

The period also included a visit to Shrek, the Musical, providing participants with an artistic experience outside the units and an opportunity to engage with musical theatre.

More than moments of leisure, these activities stimulated curiosity, cultural awareness, the expression of ideas, and an understanding of the world, reinforcing education as an experience also built through art, culture, and living together.

# Training for the future

#Connecting Talent to the Job Market

The partnerships developed throughout the quarter provided beneficiaries with learning opportunities directly connected to the demands of the world of work. Through talks, workshops, and experiences led by professionals from partner companies, they deepened their knowledge of artificial intelligence, applied technologies, financial education, career planning, female leadership, and the skills most valued by the market.

In addition to expanding technical knowledge, these meetings encouraged exchanges with professionals from different fields, bringing beneficiaries closer to inspiring career paths and new possibilities for the future.

The activities strengthened skills such as autonomy, critical thinking, communication, planning, and confidence, helping young women feel more prepared to build their life plans and enter the job market.

# our community

## #Strengthening Bonds

Beneficiaries development is strengthened when school, family, and organization move forward together. Throughout the second quarter, Cultural Showcases and meetings with parents and guardians created opportunities for exchange, dialogue, and closer ties with the community, allowing families to follow the young women's development and learn about the projects and work produced during the workshops.

These meetings also created space for reflection on important issues in the beneficiaries' development, strengthening the bond between educators and families and encouraging joint action in building more autonomous and conscious life paths. More than presenting results, these initiatives reaffirm Afesu's commitment to holistic education, based on participation, care, and shared responsibility.

## ★★★★★ testimonials

“

I found the Cultural Showcase organized by Afesu Veleiros very interesting and extremely well prepared. The talk was highly relevant because it brought reflections that directly relate to the needs and challenges we parents have been facing in recent times. It was a very meaningful experience.

The Cultural Showcase was also an opportunity to learn about all the work the girls have been developing here. I had no idea how much was being produced, and I was truly impressed.

It was very special to experience a little of the environment they are part of every day I deeply value everything Afesu Veleiros provides for them.

It has been a very positive, enriching, and transformative experience. I am very grateful for everything this team does, and I make a point of recommending Afesu to other families. I even think there should be an Afesu Veleiros for many more girls around the world, which so greatly needs initiatives like this.

”

**Aline Ferreira dos Santos, mother of Ester, age 10, beneficiary of Afesu Veleiros's Learning Recovery Project**

## Acknowledgment

**Dear partner,**

Throughout the second quarter of 2026, we continued to expand opportunities for beneficiaries through experiences that strengthened their academic, personal, and professional development.

The initiatives carried out during this period reinforced our commitment to holistic education, connected to the demands of the world of work, culture, and the development of essential skills for building life plans.

The results presented in this report reflect the joint work of educators, families, partners, and volunteers, who make it possible to offer meaningful experiences and broaden the horizons of the young women served by Afesu. We thank you for walking alongside us in this mission.

The trust and support of our partners are essential for us to continue transforming lives through education and building a future with more opportunities for girls and young women.

With appreciation and recognition,  
**Sonia de Almeida**
