

thinking huts

Since 2015, Thinking Huts has been on a mission to increase global access to education.

We are not just building schools by leveraging innovative 3D printing technology and sustainable practices, **we are creating hubs of knowledge that empower communities to thrive.**

OUR GOALS:

- Leverage architectural scale 3D printing to reduce the overall construction time of schools.
- Bring together powerful local and global partners to help solve the problem holistically.
- Create local jobs and train construction teams on 3D printer operation to support technology transfer and bolster local economies.
- Catalyze thoughtful innovation to empower communities, propelling them on a new trajectory that sees future generations flourish.

HOW YOU CAN HELP:

- Corporate Sponsorship
- Personal Giving — Pollinators Membership, Monthly, Annual, Multi-Year, or Legacy
- Volunteering and Employee Engagement
- Creative Campaigns and Brand Partnerships
- Events
