

Sponsor for orphan student for B.Pharmacy Course

Project Summary

Help Vijaya Prabhavathi, a bright orphan student; complete her four-year Bachelor of Pharmacy degree. She was successfully finished her Intermediate education and she was joined in B. Pharmacy degree course, but urgently needs \$1600 annually for tuition and boarding to continue her studies. Sponsoring her degree will secure a professional future, enabling her to break the cycle of poverty and become a vital contributor to her community's health sector.

Description / Additional Information

Vijaya Prabhavathi is an ambitious and dedicated student currently pursuing a demanding B. Pharmacy degree. As an orphan, she lacks the financial safety net necessary to cover the mandatory tuition and boarding costs at her college. She has already demonstrated her commitment and academic potential by achieving good marks in her Intermediate education. A B. Pharmacy degree is a highly respected and stable qualification, offering her direct path to employment in the Medical or pharmaceutical sector. Your support will not just pay fees; it will provide crucial stability, accommodation, and the necessary focus for her to excel in this demanding four-year program.

What is the Problem?

The primary problem is a desperate financial instability threatening a promising educational journey. Despite her proven academic success, Vijaya faces an immediate crisis: she cannot afford the \$1600 required annually for her remaining three years of B. Pharmacy studies, which covers her college fees and essential boarding expenses. Without this specific, sustained funding, she risks being forced to drop out immediately, losing her entire progress and the chance for a professional career and self-reliance.

How Will This Project Solve the Problem?

This project directly addresses the financial gap by providing reliable annual sponsorship of \$1600 for four years. The funds will be disbursed directly to cover her tuition fees and essential living expenses, including Hostel accommodation. This ensures she has a safe place to live and is completely free to focus on her rigorous academic studies without the constant anxiety of paying for necessities. By securing all her financial needs, we guarantee her seamless continuation in the B. Pharmacy program until graduation.

Potential Long-Term Impact

Sponsoring Vijaya's B. Pharmacy degree is a powerful investment in self-reliance and community health. Upon graduation, she will become a skilled, employed professional in the healthcare sector, earning a stable income that will enable her to support herself independently and positively impact her community. This success will serve as a powerful, tangible example for other struggling young women and orphans. The long-term impact moves beyond one life; it is about breaking the generational cycle of poverty and fostering an educated, empowered female leader.

Budget

| Sl, No | Expense Category | Annual Cost (USD) | Duration | Total Cost (USD) |
|--------|---|-------------------|----------|------------------|
| 1 | College Tuition & Fees | \$800 | 4 Years | \$3,200 |
| 2 | Boarding & Essential Expenses | \$800 | 4 Years | \$3,200 |
| | Total Annual Support Needed | \$1,600 | | |
| | GRAND TOTAL PROJECT FUNDING GOAL | | | \$6,400 |
