## The Need for Student Sponsorship

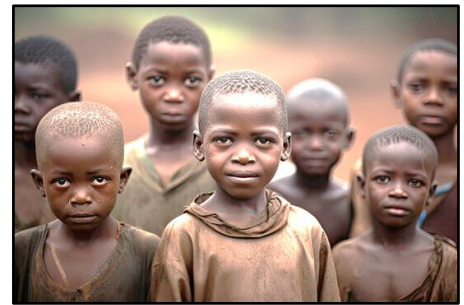

**Join CCM University in Equipping Leaders in Zambia & Africa!  
Sponsor a Student! Change Communities! Impact the World!**

CCM University is equipping & empowering leaders to impact communities spiritually, socially & economically for the glory of God! Our mission is to offer partial scholarships to 50 students this year! \$100 can train a student for a month! \$1000 can train a student for a year!

We urgently need more trained leaders throughout Africa to disciple thousands of new Christians; to establish churches, schools, orphanages & vocational training centres; and to prepare missionaries to work among our many unreached people groups.

We urgently need more leaders to address our heartbreaking social needs - widespread poverty; large populations of orphans & street kids; early deaths from malaria & HIV/AIDS; limited electricity & water supplies; poor healthcare services; and we need to maximize the use of agricultural farmland for food security & cash production!

We urgently need more leaders in business entrepreneurship, engineering, education, healthcare and information technology to establish industry, create jobs, build worker-capacity & wages & advance technology. CCM University, through our leadership development programs, can help to meet these needs!

For the past 25 years the Centre for Christian Missions (CCM) has equipped hundreds of leaders. Our graduates are men & women who have impacted communities throughout Africa! CCM University is evangelical Christian and interdenominational. Our programs are biblical, practical and affordable. Join us in changing lives through education!
