To Whom it May Concern

Dear Sir/Madam,

**RE: RECOMMENDATION OF THE TIKO SURVIVAL PACKAGE -  
DEPARTMENT OF AGRICULTURAL SERVICES KATETE DISTRICT COUNCIL,  
EASTERN PROVINCE, ZAMBIA**

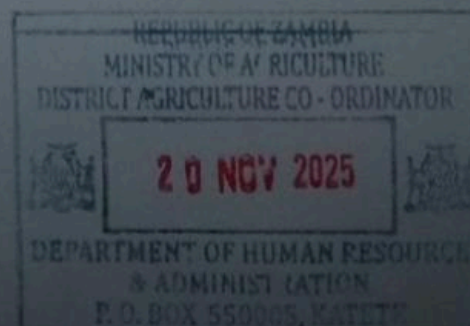

Reference is made to the above subject.

I have known and worked with Tikondane Community Centre under the able leadership of Sister Elke for many years and I am fully aware of how much she has helped many communities in Katete district.

From my own observations and reports from our Crops Husbandry Officer and many community members about the **TIKO SURVIVAL PACKAGE**, I wish to state that, so far, I am impressed with all its works. With the Tiko survival package, the Centre looks forward to growing their own vegetables all year round, using different practical technics. Eventually the Centre endeavors to produce **TIKO ORGANIC FERTLIZER-TOF** for own use and for sale. Their **CLAY ENERGY STOVE** in an outdoor kitchen, uses very small sized firewood, helping rural people in saving money for their community development and curbing deforestation in the country.

In order for many communities to be more aware of the technologies founded at the Centre including Tiko organic fertilizer, and the clay energy saving stoves, I recommend that, Tiko Centre rolls-out its activities and demonstrations into schools which are a good way to spread the technologies through the learners.

I am sure that many rural areas with subsistence farmers like ours will greatly and sustainably profit from the initiatives founded at Tiko community Centre.

I write to recommend that the **TIKO SURVIVAL PACKAGE** in Katete is a reliable and unique stakeholder championing initiatives aimed at bringing change to communities and impacting people's livelihoods, especially rural Zambians. I sincerely look forward to seeing your organization supporting the Tiko survival package.

My warm regards.

Kabange Masenga  
District Agricultural Coordinator  
**Katete District**
