

THE
ZEEBAH
FOUNDATION

CONCEPT DOCUMENT

THE ZEEBAH FOUNDATION

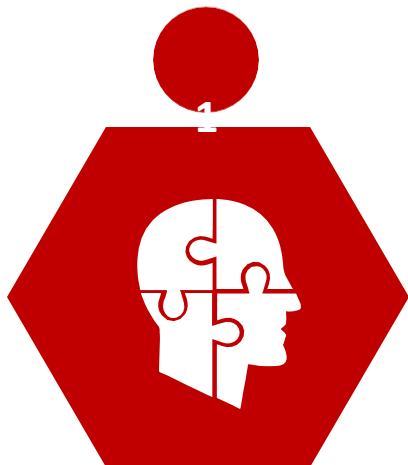

The Zeebah Foundation, a pan-African non – governmental organization (NGO) was established to eliminate the unavailability of access to early intervention as well as inclusive education for children and persons affected with Autism.

Our Vision - We envision an Africa where individuals with Autism and their families are educated and supported by local and global Communities

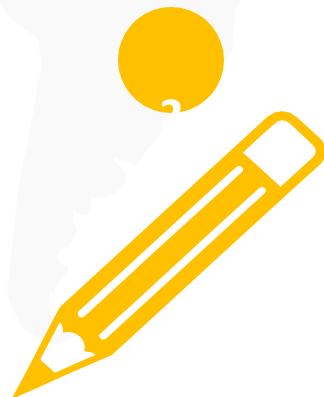

Our Mission - To give every individual with Autism, special learning needs and disorders, the very best chance at success by engaging local and global communities to create access to culturally relevant quality resources

WHAT WE DO

Delivery of Innovative, Inclusive therapy and education for children and persons affected with Autism.

Applied Behaviour Analysis [ABA Therapy], Speech & Language Therapy, Occupational Therapy, Social Skills training and Academic support

Training: Parents, educators and professionals who work with the children on the Autism Spectrum and the general public via advocacy campaigns

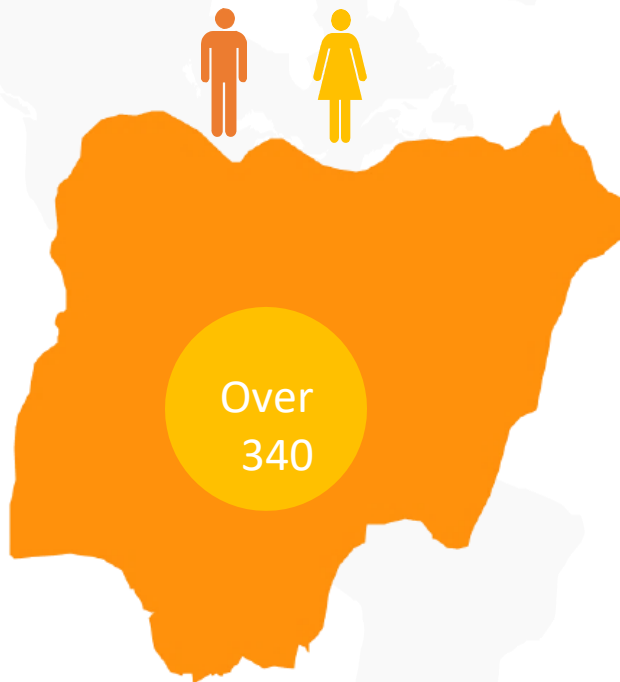

Research: Solution-targeted research on challenges affecting children, individuals and their families affected by Autism Spectrum Disorder (ASD)

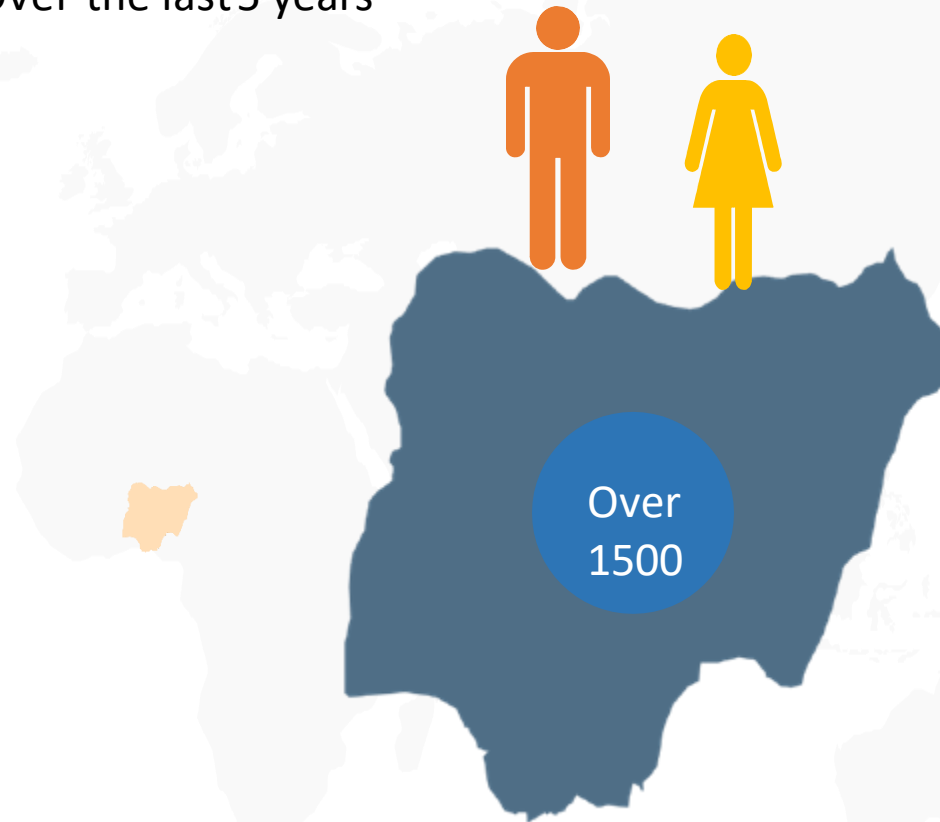

OUR IMPACT

Over the last 5 years

Therapy & Educational services delivered to children:

- Assessments & Evaluation
- ABA Therapy
- Speech Therapy
- Social Skills Training

Trainings:

- Workshops organized for Parents & Teachers
- In-school workshops for Teachers
- In-house parent training

OUR LONG-TERM GOALS & OBJECTIVES

The Zeebah Place - Autism Centre

We seek to provide world class services to children and adults affected by /living with autism by providing access to quality national and international resources in a world class centre for children on the Autism Disorder Spectrum in Nigeria's Federal Capital Territory, Abuja.

The Zeebah Foundation dream was borne out of a need to provide early intervention as well as inclusive education for children of ages 2 - 16 affected by Autism given the high number of Nigerian children in similar centres and institutions overseas.

Our Long-Term Goals & Objectives

Pilot Centre - The Zeebah Place Abuja

Over the past 6 years, over 300 children have walked through the doors of our pilot centre 18 successfully re-integrated into mainstream schools. 5 of them have been scholarship beneficiaries of the support and generosity of our **Friends of The Zeebah Foundation**.

Due to our evident need to expand, we seek to provide a state-of-the-art centre to cater to 200 children on the spectrum, accommodate 50 of them on-site and 20 on sponsorship. We are dedicated to securing land of not more than 5,000sqm for a larger facility and funding to support our scholarship programs that will provide full or partial tuition and therapy-free assistance for children on the spectrum to promote accessibility and inclusivity

Sponsorship of children requiring Therapy Care, Academic Support and other services

Applied Behaviour Analysis [ABA Therapy] targeted at social skills training Programs.

IT and Computer Skills Training Programs

Training sessions for Parents, and caregivers of children affected by Autism Spectrum Disorder (ASD)

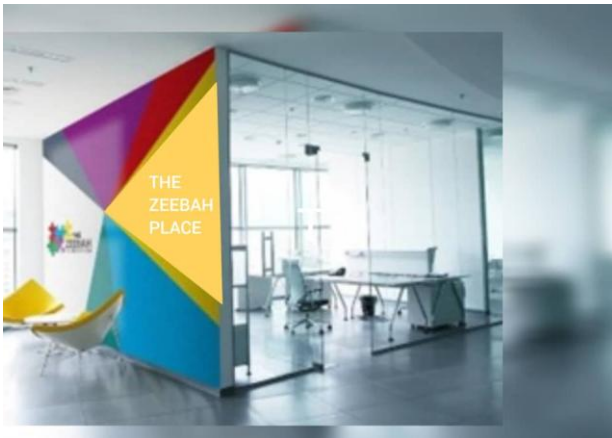

Research: Solution-targeted research on challenges affecting children, individuals and their families affected by Autism Spectrum Disorder (ASD).
