

«CITY OF GOODNESS»

Charity foundation

The activities of the charity foundation "City of Goodness" are aimed at supporting **women and children** in difficult life circumstances

Funded by businesses, international organizations, and caring people

All services are provided absolutely free of charge

The main goal of the "City of Goodness" is to **support mothers with children and orphans and to prevent social orphanhood**

"City of Goodness" assists mothers who find themselves in **difficult life circumstances, experiencing domestic violence or homelessness** with a child, elderly women, and **children deprived of parental care**, including **orphans with severe nosologies**.

"City of Goodness" provides families with **housing, protection, food, medical care, provision of belongings, psychological rehabilitation, support**, and everything necessary for life during the period the family needs to recover.

Specialists work with the wards - lawyers, psychologists, teachers, pediatricians, and mentors who help to **become confident and responsible mothers** for children.

7000 **did not get into orphanages and stayed with their mothers***

**as of June 15, 2023*

There are 6 buildings in the "City of Goodness", and construction continues...

The main building is where mothers and children live, and a kindergarten operates. In addition to 27 living rooms, it has a kitchen, dining room, library, two playrooms, a doctor's office, and a gym, now converted into a bomb shelter.

The second building is where the evacuated orphans of the Mykolaiv Children's Home live.

The third building houses the children of the Odessa specialized psychoneurological boarding school. There is a kitchen, a dining room, a bomb shelter, two game rooms, a library, and a psychologist's office.

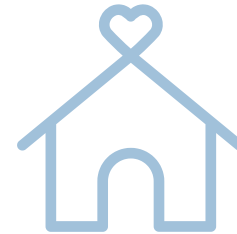

The children of the Odesa Children's Home live in the fourth building, which also has a sewing workshop on the first floor.

In the fifth building, there is a shelter for dogs, "Tails."

The sixth building has a hospice and rehabilitation department for children of the "Butterfly House" medical center.

Currently, plans are underway to build a seventh building. It will house a rehabilitation center with an inclusive swimming pool.

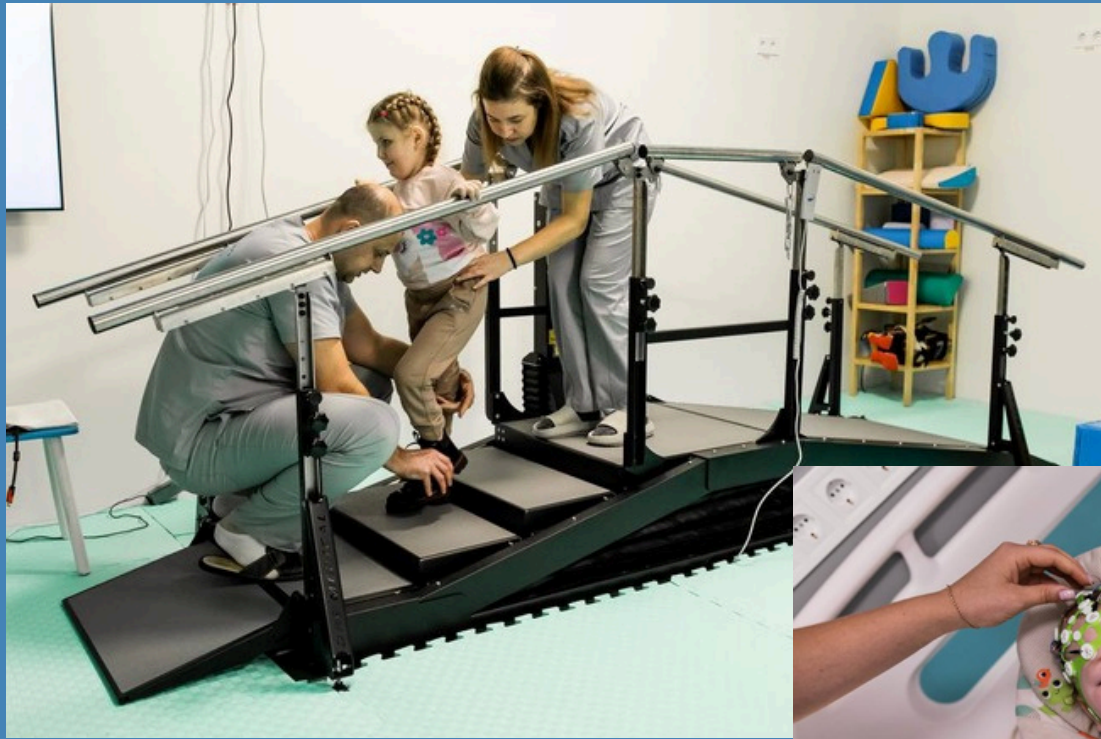

Buildings 8-11 will become four individual houses for families raising orphans with disabilities through family-based upbringing.

Plans don't stop there...

Women's Rights Protection Department "City of Goodness"

For whom the Women's Rights Protection Department was created:

For women from all over Ukraine who have experienced or are experiencing domestic violence, who do not have a place where they are safe from the abuser(s), who do not know how to protect themselves and their children, and who may not be aware of protection options and laws about prevention of domestic violence in Ukraine.

What services women are receiving in the Women's Rights Protection Department:

- Free legal assistance;
- Free psychological support;
- Free medical care;
- Individual instruction on financial literacy and independence;

Women who cannot come to the "City of Goodness" or do not intend to leave their residence can also apply for help.

Children's Rights Protection Department "City of Goodness"

Who receives help from the Department?

Children who are in difficult life circumstances for various reasons and their rights to safe living conditions, education, medicine, and development have been violated.

What help does the Department provide?

Each child has an individual list of necessities, from stationery and medicine to buying furniture or home repairs.

In addition to humanitarian support, children are also provided with social, psychological, medical, and, if necessary, rehabilitation assistance.

Our team visits families and constantly maintains contact with wards.

"Mama Sews" Academy

It aims to give women in difficult circumstances a chance for a new life through sewing training. Academy will allow them to find a job or open their own business and work from home. This is not just a training course; it is an opportunity to provide for yourself and your children, become financially independent, and improve the quality of your life.

As part of the project, the participants take a three-month course. During this time, they acquire knowledge and skills that will allow them not only to find a job but also later open their own business, working from home. We provide all the necessary training materials and equipment so women can focus on acquiring new knowledge without additional worries.

During the year, we plan to organize four educational groups, which will allow us to reach about 100 women. Each course aims to teach and provide participants with support and opportunities for personal growth.

We provide skilled childcare, allowing mothers to focus on education and self-development. The project also offers free accommodation in the City of Goodness, where participants can find temporary shelter and safety.

"Mama Sews" Academy is not just training. This is a path to a new life, an opportunity to change your destiny and the destiny of your children.

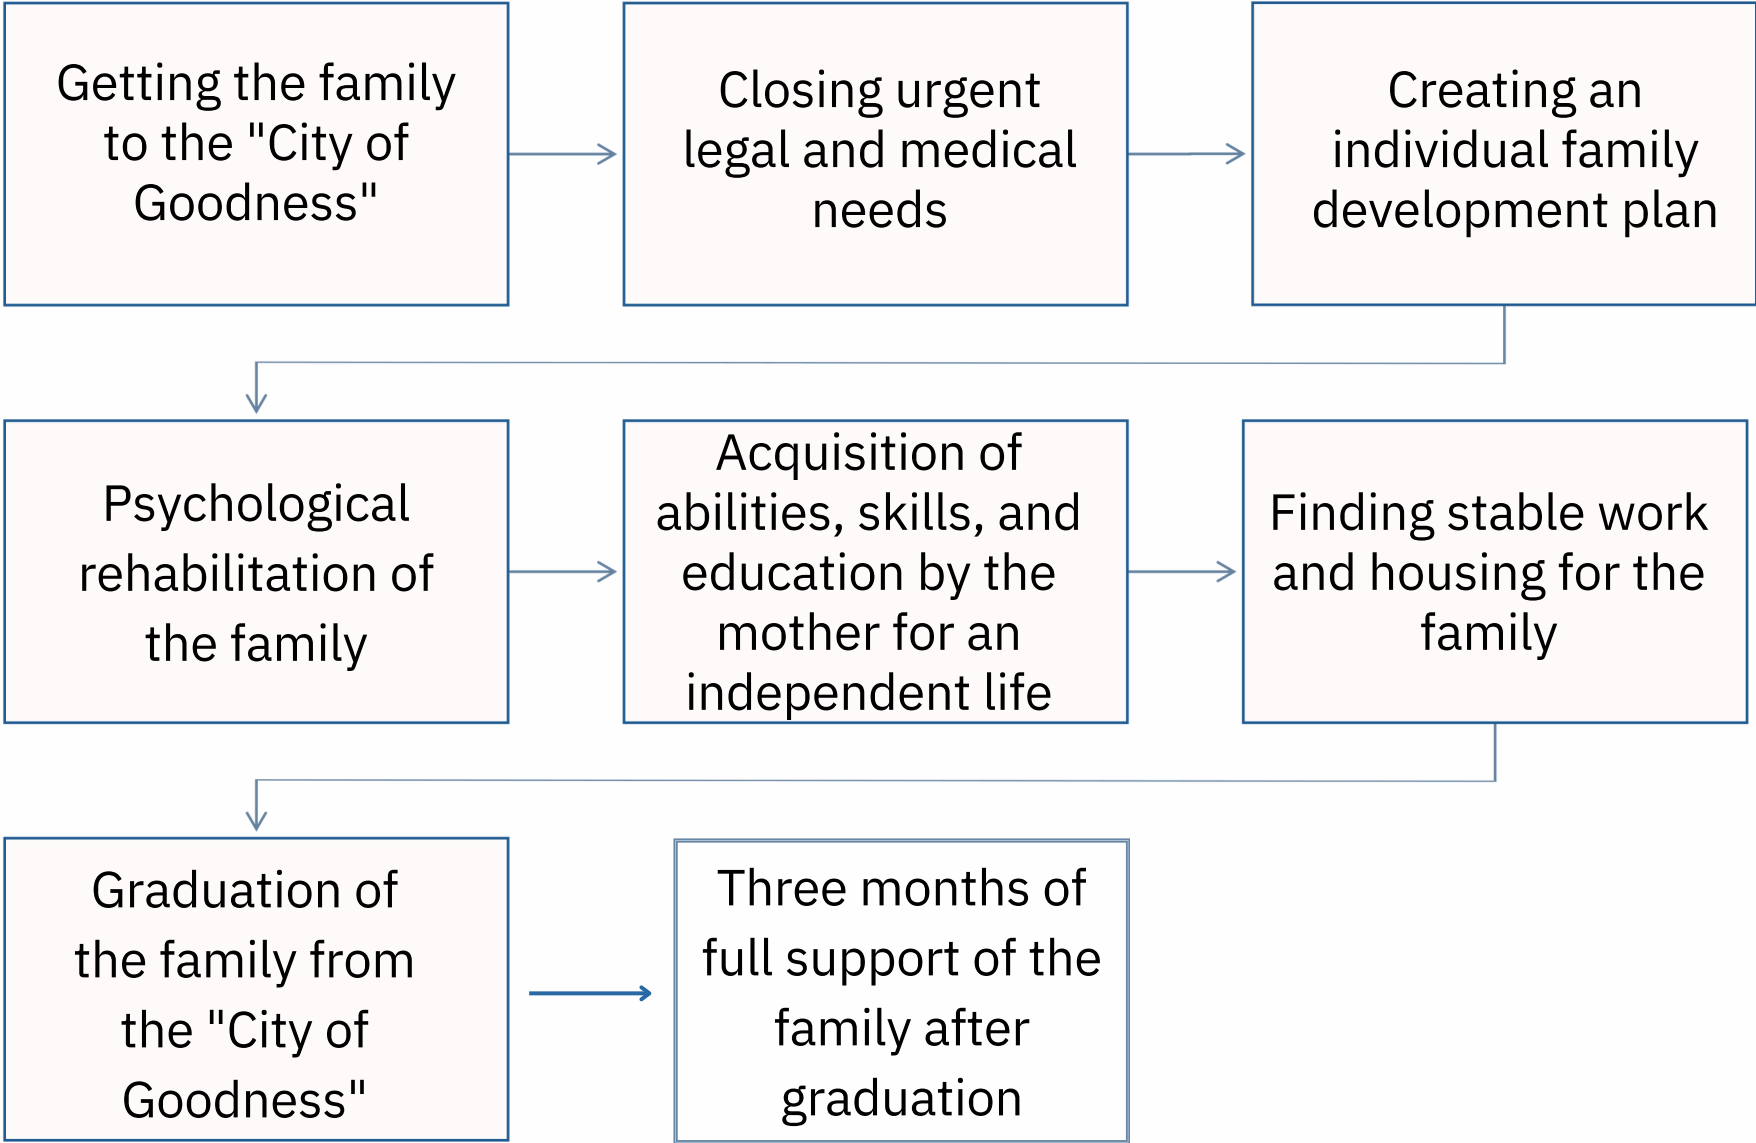

"Tails", Shelter for dogs of "City of Goodness"

Children and dogs mutually care for each other - children care for the dogs, and trained dogs with a certified canine handler work with the children in our canister therapy center. Therapy is part of the psychological rehabilitation of children.

All the dogs in our shelter were homeless and needed help. By caring for dogs, children learn responsibility and empathy. Dogs not involved in the canister therapy program are regularly adopted by families and leave the shelter.

Activities of the Foundation, in addition to the running of the "City of Goodness" shelter

Humanitarian support for families with children in difficult life circumstances

The Foundation constantly sends and delivers food, hygiene items, and basic necessities to families in need nationwide.

Medical support for children from low-income families

The foundation conducts fundraisers, meets the medical and treatment needs of children from families in difficult circumstances, organizes modern treatment, and provides medicines.

Assistance to women affected by domestic violence

The Foundation provides safe shelter and helps with the legal process for women who are hiding from domestic violence. It also offers psychological help and helps them start a new life. In addition, the Foundation helps in creating safe rooms in the communities of the Chernivtsi region.

Prevention of sexual violence against children

The Foundation created a program for training psychologists who work in families where there is suspicion of sexual violence against children. Psychologists help to remove the child from a dangerous situation in time and accompany him through the subsequent court procedure.

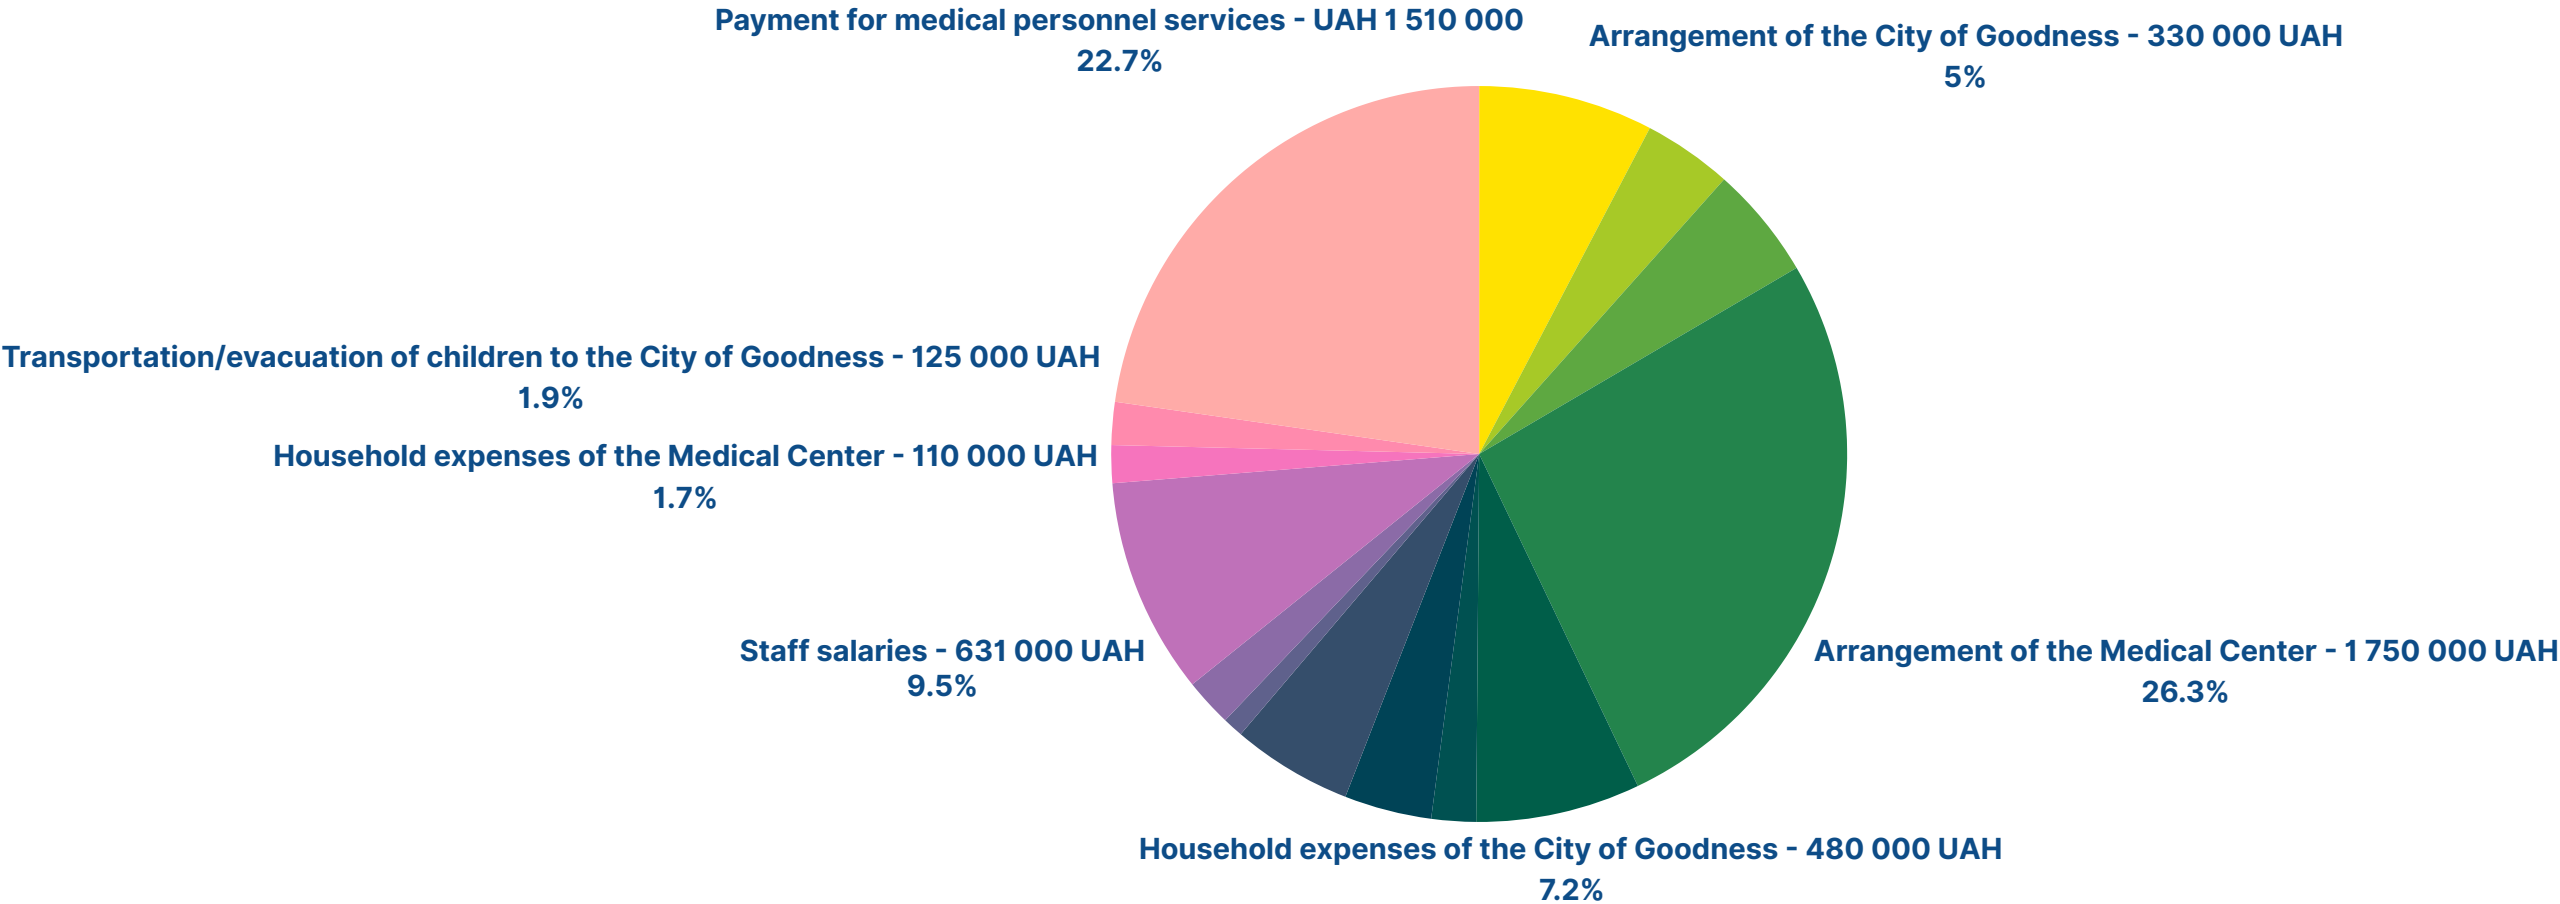

Advocacy to improve the quality of palliative care for children in Ukraine

The Foundation participates in relevant events, shares experiences, and publicly advocates the importance of providing quality palliative care to children in Ukraine.
