

ANNIECANNONS

We train, prepare, and connect individuals who have experienced human trafficking to sustainable careers in tech.

The Problem

- Human trafficking is an enormous challenge: more than **1,000,000 people** per year experience labor and sexual exploitation in the US alone.
- Financial independence is one of the most critical factors in a survivor’s healing journey. In many instances, a job training program that centers survivors’ unique needs and leads to high-wage career opportunities can mean **the difference between re-exploitation and economic stability.**

Our Solution

A comprehensive training and workforce development program that incorporates a unique and integrated blend of:

- **Training** | Trauma-informed technical training alongside paid project-based learning
- **Preparing** | Holistic workplace readiness focused on innovative and individualized student success
- **Connecting** | Engagement with mentors and tech industry professionals + job placement in companies across the country.

Our Impact

Social/Emotional Learning Outcomes	Job Readiness and Skill Acquisition	Job Placement and Career Launch	Career Longevity and Economic Security
90% of participants meet pre-employment mindset & skillset growth goals	85% of participants successfully complete the program	80% of participants placed within 6 months in a full-time tech job,	90% of placed participants remain employed for 12 months post-program

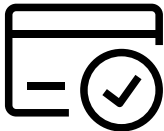

OUR VISION

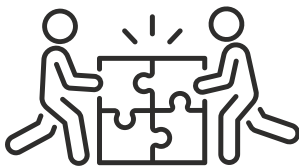

Through training, coaching, and a community of care, survivors of trafficking can establish sustainable technology careers, break the cycle of exploitation, and **achieve economic stability for themselves and their families.**

Return on Investment and Impact

Since 2016, we've delivered over **\$3.3 million in direct payments** to students working on software in our programs.

In 2025, AnnieCannons will unlock **\$4.6 million in salaries** for graduates in new companies.

By funding **\$30,000**, you can help support **\$225,000** in three years of earning for a graduate.

"Today, I hit a milestone in my survivor journey. For the first time, I have personal documents secured, money, a job, an education, a safe home and a healthy relationship. I officially have no barriers in my life. **I am stable and I am happy.**"

AC Graduate

"AnnieCannons stands out by providing survivors a **great technical education from excellent instructors**, allowing graduates to pursue a multitude of technical careers and to put both those **soft and hard skills** to good use."

AC Graduate and Board Member

"Being able to work with AnnieCannons and learn from their experience but also working with survivors who now **feel empowered to enable technologies like ours to be used for a good cause** really is why we are here and how we want to use our platform. AnnieCannons is really leading the world in this space."
