

Dream Workshop NGO

The NGO "Dream Workshop" has been working since **2015 in Ukraine** to create a unique ecosystem of community based services for youth with mental disabilities.

Dream Workshop embodies the idea of building an inclusive society in Ukraine where everyone, regardless of mental disability, feels accepted and socialized and has the opportunity to develop their potential.

Our community based services

On the excursion

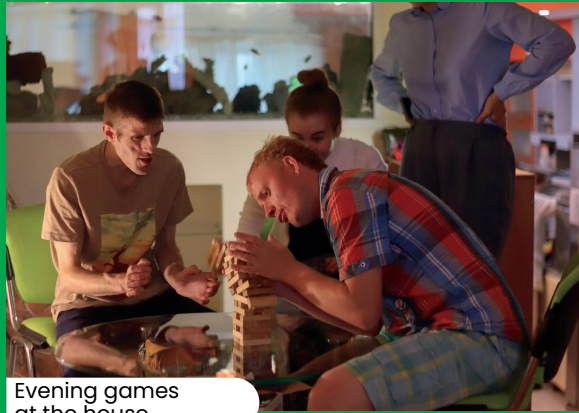

Day Care Centers for Youth with Mental Disabilities

We help socialize youth and develop self-care skills through various activities: cooking classes, creative workshops, physical exercise education, music therapy, a book club, a board games club, and an independence development club.

During all activities, we emphasize developing independence and responsibility, overcoming anxiety and insecurity, promoting active decision-making, fostering developing friendship skills, and enhancing social interaction abilities.

Supported Living

The Russian invasion brought new challenges: IDPs, destroyed infrastructure, and people displacement. In January 2023, we launched two Supported Living Houses. 15 people moved to live there from the institutions (closed internats and psychiatric hospitals).

Birthday Celebration

For the first time in their lives, they have the right to choose their food and activity, and they learn what it means to have private property. We believe every person has the right to live with dignity, and Ukraine will follow this path.

In Ukraine, there is no state funding for community-based services. We aim to develop it through our work, but currently, we are in great need of support from philanthropists.

If you want to change one life, you can donate:

\$250 monthly cost of day services per one person

\$1000 monthly cost of supported living per one person

This includes salaries for specialists, rent, utilities, medication, and personal needs of the youth.

Your donation can significantly transform their lives and destinies.

Thank you for your open heart
