

## SOCIAL IMPACT

### NUEVO LEON:

A total of  
**77 NEW PATIENTS**  
joined our support programs

### MICHOACÁN:

**5 NEW PATIENTS**  
joined our support programs

## CHARITY BAZAAR

Last Friday, May 15th, we held our fundraising event at our facilities. All in-kind donations received during the "Give to Heal" campaign were sold as part of our fundraising efforts.

Thanks to the support of everyone who attended, bought, and believed in this bazaar with a purpose, we were able to raise \$30,320.00.

## DONATIONS OF DIAPERS AND BIMONTHLY MEDICAL SUPPLIES KITS

On May 7 and 8, we held our bimonthly distribution of adult diapers and medical supply kits at our facilities. These essential supplies were collected by the caregivers and support networks of our beneficiaries, who provide daily care and assistance to their loved ones.

**+100 BALES OF DIAPERS**  
for children, teenagers, and adults  
were distributed to families in need.

**+80 WOUND CARE KITS**  
and additional medical supplies  
were delivered to our beneficiaries  
and their caregivers.

## FREE MEDICAL EQUIPMENT AT THE SOUP KITCHEN IN ESCOBEDO

On March 30, we visited the Escobedo Soup Kitchen, where we received more than 20 requests for medical equipment, including glucometers, canes, crutches, blood pressure monitors, and walkers.

Thanks to the collaboration of the Soup Kitchen staff, families were able to complete and submit the required documentation, taking the first step toward accessing this essential support.

On April 11, the requested equipment was delivered at the same location, benefiting primarily vulnerable older adults and helping improve their mobility, health, and quality of life.

## OXXO CUSTOMERS' ROUND-UP DONATION CHECK PRESENTATION – MICHOACÁN

On April 17, we visited Zinapécuaro, Michoacán, to attend the check presentation ceremony for the funds raised through OXXO's "Cambio x Cambio" (Change for Change) campaign.

Thanks to the generosity of OXXO customers, who donated their spare change with each purchase, these funds will provide medical equipment to beneficiaries in Michoacán, helping improve their quality of life and ease the challenges of home-based care.

This collective effort enables us to continue expanding our programs throughout the state, reach more families caring for a loved one at home, and make a meaningful difference in the lives of those who need it most.

## STUDENTS FROM STANFORD SCHOOL SPONSOR THREE FAMILIES

The fifth-grade students at Stanford Elementary School organized a fundraising campaign to sponsor three families participating in Sana en Casa's programs.

Our team visited the school to receive the donated items and share more about our mission.

The students also took part in a question-and-answer session, learning how their generosity helps families caring for a loved one at home.

The donated items were then delivered to the beneficiary families, ensuring that their support reached those who needed it most.

## CONFIO CERTIFICATION

This year, we successfully completed our recertification process with Confío, achieving a perfect score of 36 out of 36 in the evaluated standards.

We are proud to be recognized once again as an organization committed to transparency, accountability, and best practices. As recommended by Confío, we are pleased to share the following message:

*Sana en Casa is an organization committed to transparency and best practices. We have received Confío's highest distinction, providing donors and the public with confidence in our operations and the responsible use of donations. Learn more about our evaluation at [confio.org.mx](http://confio.org.mx).*

## "DIGNIFIED CARE FOR ALL" CAMPAIGN – ZINAPÉCUARO, MICHOACÁN

As part of our "Dignified Care for All" campaign, we launched an initiative to provide mobility equipment, blood pressure monitors, glucometers, diaper packs, and wound care kits to vulnerable individuals in the Zinapécuaro community, in coordination with the Municipal Medical Center.

On June 16 and 17, we received more than 80 applications from families and caregivers seeking support. During these registration days, applicants submitted the required documentation, allowing each case to be formally evaluated and enrolled in the program.

The requested items will be delivered in the coming weeks, thanks to the generosity of OXXO customers, whose contributions through the "Cambio x Cambio" (Change for Change) round-up campaign made this initiative possible.

## SUPPORTING FAMILIES THROUGH THE GUADALUPE SOUP KITCHEN

As part of our partnership with the Guadalupe Soup Kitchen, we visited its facilities to deliver medical equipment to community members in need.

During this visit, two older adults requested blood pressure monitors. After reviewing their applications, we were able to provide the equipment immediately, free of charge, helping them better monitor and manage their health at home.
