

NEW YEAR, SAME GOAL

We begin this new year with renewed hope and a heartfelt commitment to continue strengthening the support network that sustains caregiving families and defends the right to health for those recovering at home. Every achievement shared today represents lives touched, burdens eased, and families reminded that they are not alone. With gratitude and purpose, we are proud to share the impact we achieved together over the past three months.

NUEVO LEÓN:

We currently operate four active programs in Nuevo León: medical equipment loans, diaper donations, wound care supply donations, and transportation services for medical appointments and therapies.

A total of

58 NEW PATIENTS

joined our support programs

MICHOACÁN:

In Michoacán, we have coverage in the areas surrounding Morelia and only the medical equipment loan program is active.

a total of

5 NEW PATIENTS

joined our support programs

FUNDRAISING

Thanks to the continued support of Andrea Reséndez, we received a donation of 100 calendars to launch our fundraising activities. Through the sale of 86 calendars, we raised \$15,310, which will directly support the operation of our programs.

STAFF TRAINING

The operational and administrative team, together with members of the Board of Trustees, participated in the workshop "Providing Care in Critical Situations: Giving and Receiving Bad News" as part of their personal and professional development. This training plays a key role in strengthening the skills needed for work that involves constant emotional challenges and close, compassionate interaction with the individuals and families they serve.

The workshop was conducted by BEBEST at their facilities and was fully tailored to the needs and experiences of Sana en Casa.

VISITS TO OXXO STORES IN MORELIA, MICHOACÁN

From January 19 to 21, members of the Sana en Casa team traveled to Morelia to visit OXXO stores as part of the requirements for our participation in the customer round-up program “Cambio x Cambio.”

During these visits, the team reached more than 30 branches, where they had the opportunity to share the mission and work of Sana en Casa with store leaders and cashiers—key allies in making the round-up initiative possible.

Volunteers in Michoacán also joined the effort, traveling to areas outside downtown Morelia to help complete the visits. Thanks to their dedication and commitment, the initiative was carried out successfully.

BIMONTHLY DONATIONS

On March 12 and 13, our facilities became a space of support and hope as more than 100 caregivers and family members came to receive their bimonthly donation of diapers and medical supplies.

Beyond meeting an essential need, these donations help ease the financial burden many families face while caring for a loved one at home. More importantly, they serve as a reminder that they are not alone, that there is a community committed to supporting and walking alongside them in their caregiving journey.
