

GlobalGiving Progress Report (3-Month Report)

Project: Empowering Refugee & Host Youth in Kalobeyei

Reporting Period: May–August 2026

Organization: Kalobeyei Art Learning Center

Project Update

Thanks to the generous support received through the GlobalGiving Little by Little Campaign, Kalobeyei Art Learning Center received €1,732.60 (approximately KES 218,000). During this three-month reporting period, the funds were invested in constructing essential infrastructure for our organization.

With donor support, we successfully built a new office, one classroom, and a toilet facility. These facilities provide a safe and organized environment for children and youth participating in our music, arts, and educational activities. This is a major milestone that strengthens our ability to serve vulnerable refugee children and the host community for years to come.

Impact

The new facilities improve program delivery, provide a dedicated learning space, and strengthen our organization's long-term sustainability. We are grateful to every donor who contributed to making this achievement possible.

Next Steps

Our next priority is to equip the classroom with furniture, learning materials, and musical instruments so that more children and youth can benefit from the new space.

Thank You

We sincerely thank all GlobalGiving donors for believing in our mission. Your generosity has helped create a safe learning environment and lasting opportunities for refugee children and youth in Kalobeyi Settlement.
