

Abba Grace Home

Protecting Orphaned Girls from Exploitation in Pakistan

Organizational Snapshot

Organization: Bright Hope Ministries (GlobalGiving Partner)

Project: Abba Grace Home – A Haven for Orphan Girls

Location: Lahore, Pakistan

Current Beneficiaries: 9 orphaned and highly vulnerable children

Focus Areas: Child Protection • Education • Ending Abuse • Gender Equity

The Problem

In Pakistan's brick-kiln communities, orphaned and abandoned girls face extreme vulnerability. Many are born into bonded labor systems—where families work for years to repay generational debts—and orphaned girls are often left without protection. These children are at high risk of physical abuse, sexual exploitation, early child labor, and forced domestic servitude. Without intervention, their future is defined by trauma and poverty.

Our Solution

Abba Grace Home provides **long-term, family-based residential care** for orphaned and at-risk girls rescued from bonded labor environments. Founded in 2021 by **Beenish Sardar**, the home offers a safe, stable, and loving environment where each child receives:

- Secure housing and daily nutritious meals
- Formal school enrollment and educational support
- Access to healthcare and counseling
- Emotional healing and trauma-informed care
- Life-skills training to build independence and confidence

Care is holistic, consistent, and centered on dignity—not temporary relief.

Impact to Date

- **9 children** removed from high-risk environments
- **100%** enrolled in formal or bridge education
- Improved physical health, emotional stability, and school attendance
- Safe, abuse-free environment established for every child

Each child now has a future defined by safety, education, and hope.

Long-Term Impact

Abba Grace Home breaks cycles of exploitation by raising confident, educated, and self-reliant young women. Graduates are equipped to pursue higher education or vocational pathways, reducing vulnerability to abuse and generational poverty while strengthening their communities.

Funding Need

Annual Operating Support: Shelter, food, education, healthcare, staffing, and child protection services

Scalable Model: Additional funding allows us to rescue and care for more girls at immediate risk

Why Corporate Partners Engage

- Strong alignment with **Child Protection, Education, and Gender Equity goals**
- Transparent impact reporting via GlobalGiving
- Ethical, non-political, humanitarian focus
- Proven grassroots delivery with measurable outcomes

Call to Partnership

Your investment provides **sustained protection**, not short-term aid. Together, we can ensure no orphaned girl is left vulnerable to exploitation.
