# Shamwari Wildlife Rehabilitation Centre

*The Shamwari Wildlife Rehabilitation Centre (WRC) is an established and registered rehabilitation facility. The centre focuses on the veterinary care and rehabilitation of sick, injured and orphaned wild animals with the sole purpose of reintroducing the animals back into the wild.*

## Threats faced by African wildlife:

- Poaching and poisoning
- Infrastructure collisions and electrocution
- Deforestation and reduced natural habitat

## WRC addresses these threats by:

- Rescue and release
- Excellent rehabilitation enclosures
- Highly-qualified veterinarians and staff
- Ecotourism and education
- Community and conservation partnerships

TO ENSURE THE SURVIVAL OF THE ANIMALS, SPECIAL CARE IS TAKEN TO PROTECT THEM FROM HABITUATION TO HUMANS DURING THE REHABILITATION PROCESS.

# R1,200,000

**CONTRIBUTION GOAL**

*(As of May 2025)*

R750,000 = 1 LARGE RAPTOR ENCLOSURE  
R300,000 = 2 MULTIPURPOSE ENCLOSURES  
R175,000 = 5 ANTELOPE ENCLOSURES
