

OBJECTIVE

Uplift a Child International is a non-profit organization, founded by Samuel and Rena Vonumu in 2000. Our objective is to identify poor and needy children, place them in a school, and support them through 12 years of schooling continuing through high school. This will keep the children off the streets, provide them with the basic skills to develop, and give them an opportunity to emerge as self-reliant and productive members of society. By the time the children complete high school, they will have the necessary social skills and will be mature enough to plan and work towards a brighter future. Until then, we work with each child to help them grow in the right direction. More than 1000 children are going to school because of our team work.

We measure everything we do. Our educational programs are changing the lives of hundreds of children and helping them to become good citizens. Most of them are attending good English medium schools all over the country. All our programs are run entirely by volunteers. Because of that, all our contributions and hard work go directly to the child's benefit. Anyone can join us at any time. It costs only US \$125 to \$195 per year to support a child in our program which pays for the following below:

- Full year tuition fee
- School Uniforms
- Shoes and socks
- School tie and belt
- Text books and notebooks
