PREAMBLE

Crown Nursery and Primary School is located in Bugadde Village in Mayuge District. It is one of the most trusted and respected schools in the community, serving more than **600 pupils** from the surrounding villages. For many families in this rural area, the school represents hope for a better future for their children.

Despite its importance to the community, the school faces very difficult conditions. The biggest challenge is the lack of proper infrastructure. The school does not have adequate buildings, and many classes are conducted in temporary structures that cannot fully protect learners from the weather. When it rains, classrooms and the school compound become muddy, making it difficult for pupils to concentrate and sometimes forcing lessons to stop. During the dry and hot seasons, dust fills the classrooms, creating an uncomfortable learning environment for both pupils and teachers.

Another challenge is the lack of desks. Many pupils are forced to sit on the floor while studying. This makes writing difficult and discourages effective learning, especially for younger children who need a supportive environment to develop their basic skills.

Transportation is also a serious concern for some of the learners. Several pupils come from communities separated by water and must cross using small canoe boats every day to reach school. This journey can be risky, especially during bad weather, but the children remain determined because they understand the value of education.

Despite these hardships, the spirit of the pupils and teachers remains strong. The children arrive at school every day eager to learn, and the teachers continue to do their best with the limited resources available. The school has become a pillar of hope in Bugadde Village, shaping the future of hundreds of young lives.

However, for these children to truly thrive, they need a safer and more supportive learning environment. Support is urgently needed to help construct proper classrooms, provide desks, and improve the school compound so that learning can take place in dignity and safety.

Your support can transform the lives of these 600 children. By investing in Crown Nursery and Primary School, you are not just building classrooms you are building opportunities, dreams, and a better future for an entire community.

Thank you for standing with the children of Bugadde Village.
