

# APRIL UPDATE

*“Because no one breaks the cycle alone...”*

## This Month's Impact:

👩👧👦 Moms Supported: 29

Trainings/Workshops Attended: 17

### *Transition house*

Jonas was able to enroll in a wonderful daycare this month, where he spends his afternoons building socialization skills with other children. In the mornings, Coralia is intentionally working with him on connection and whole-child development

### *Mentoring*

Several girls participated in a three-day artisan and leadership training in Jarabacoa focused on personal and practical growth. A highlight was two girls spending meaningful one-on-one time with their mentors, strengthening relationships and encouraging growth.

### *Group home Activities*

This month, there was a strong focus in the girls' home on financial literacy and understanding healthy power dynamics in relationships. The girls engaged in conversations about managing money, distinguishing needs versus wants, and building wise habits for the future.

### *Institutional*

We held our annual General Assembly this month, a required board meeting to maintain our nonprofit status. It was a meaningful time to reflect on all that La Senda has accomplished over the past year.

### **Thank you!**

All of this was made possible by your support. If you want to know more, follow us on Instagram [@La\\_Senda\\_DR](#) and if you know someone who might want to support this mission, please share this link to our GlobalGiving project on social media, or just bring us up in conversation.
