

# Laughter overcomes fear

Doctor CLOWN Dnipro

On February 24, the Russian army invaded Ukraine.

Just two days later Charitable Foundation "Pomagaem" together with Doctor CLOWN Dnipro, opened a shelter for IDPs with children and people with disabilities, which has received so far 2,156 people in 52 days.

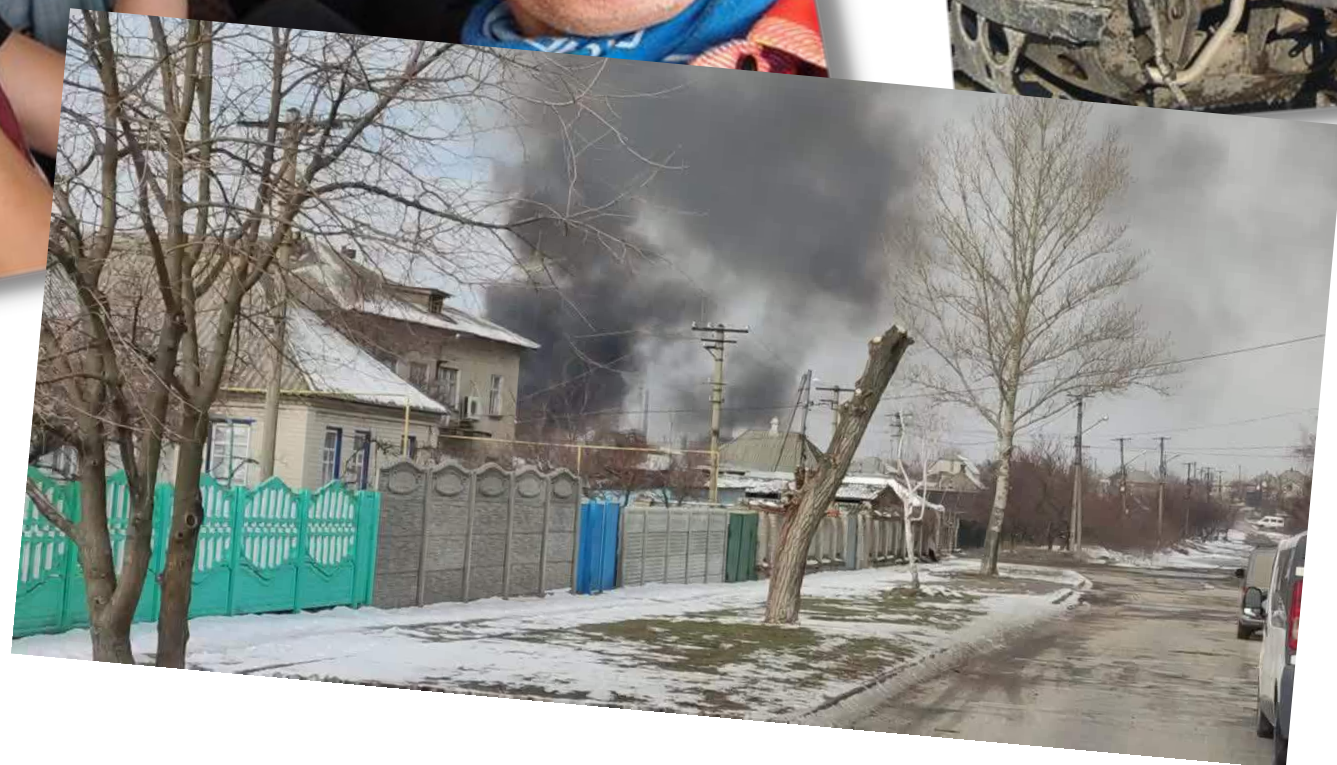

In our Shelter for Refugees, there are 3 meals a day, accommodations and medical care, all free of charge.

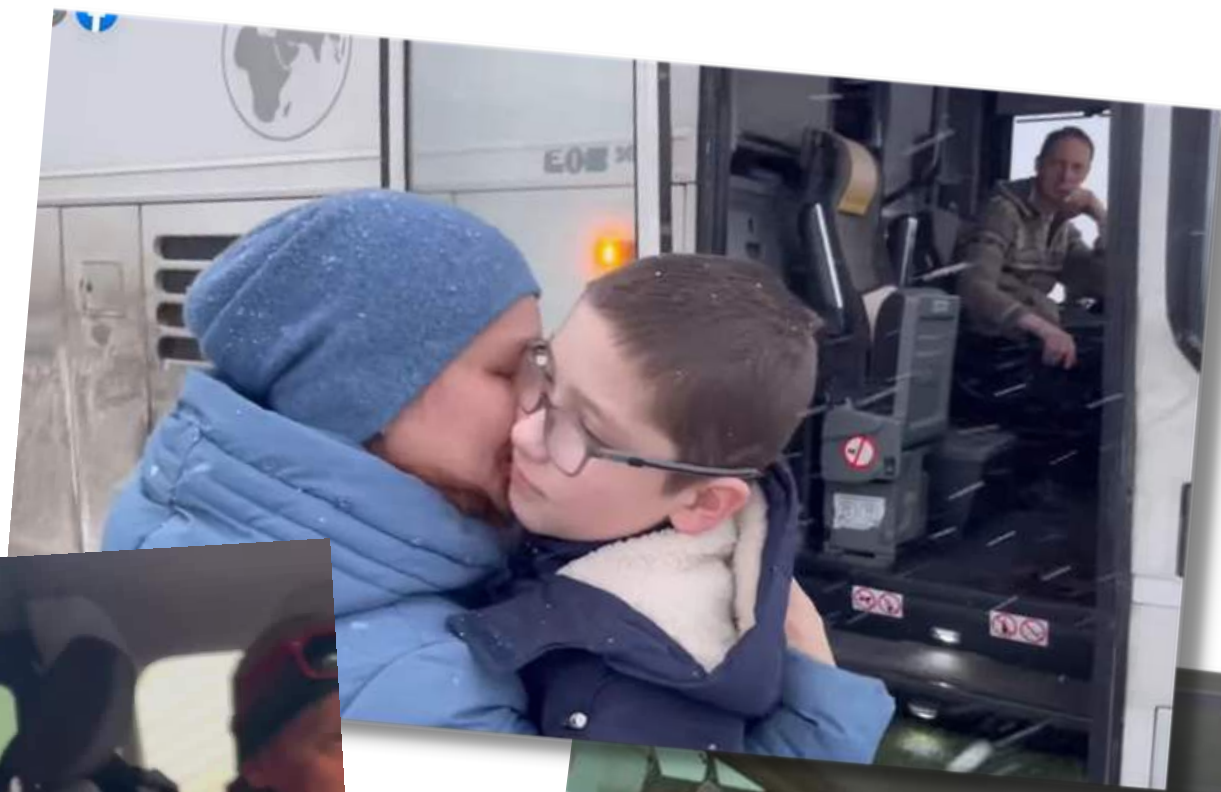

The horrors of war most people in the shelter went thru is truly heartbreaking.

Destruction of their homes, daily shelling and bombardements, hiding and living in basements for weeks, often with no electricity, heating and scarce food. When finally evacuated often with minimum of personal belongings.

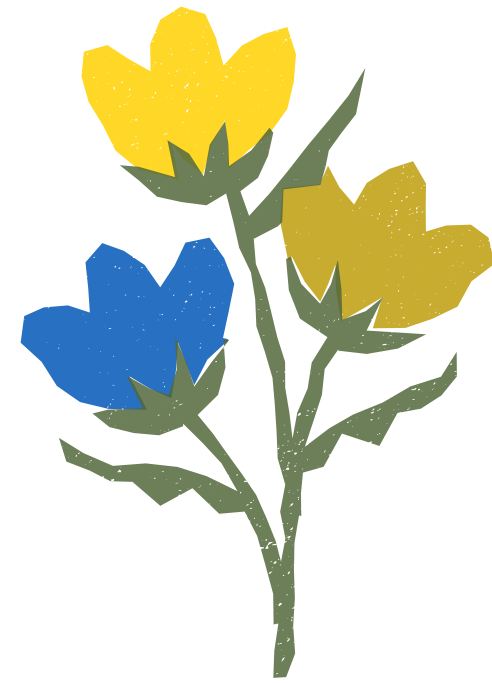

From the first day of the war, Jan Tomasz, the leader of Doctor CLOWN Dnipro, has been involved in the evacuation of families with children with people with disabilities.

Jan, together with brave drivers of buses and mini buses, took more than 6,000 people from hot spots in Kharkiv, Donetsk, Luhansk, Kherson, and other cities to the Dnipro and the region.

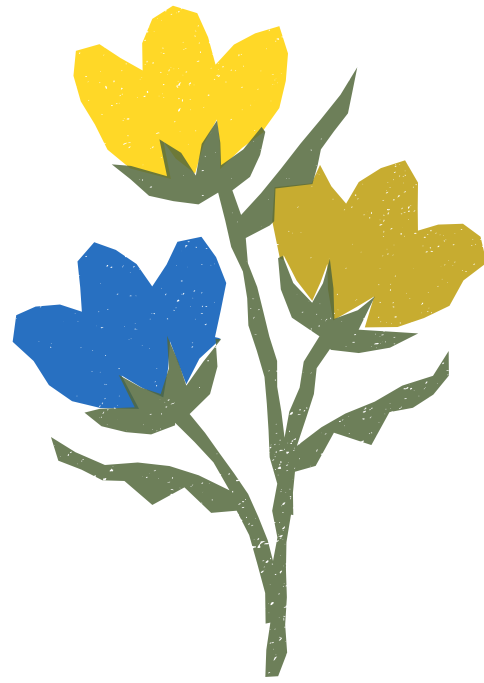

2,000 people were evacuated from our Shelter to Poland, Germany, the Czech Republic, Spain, Portugal, Lithuania, the Netherlands, Estonia, and Austria.

Moreover, children from Dnipro Regional Children's Hospital need positive input even more than before.

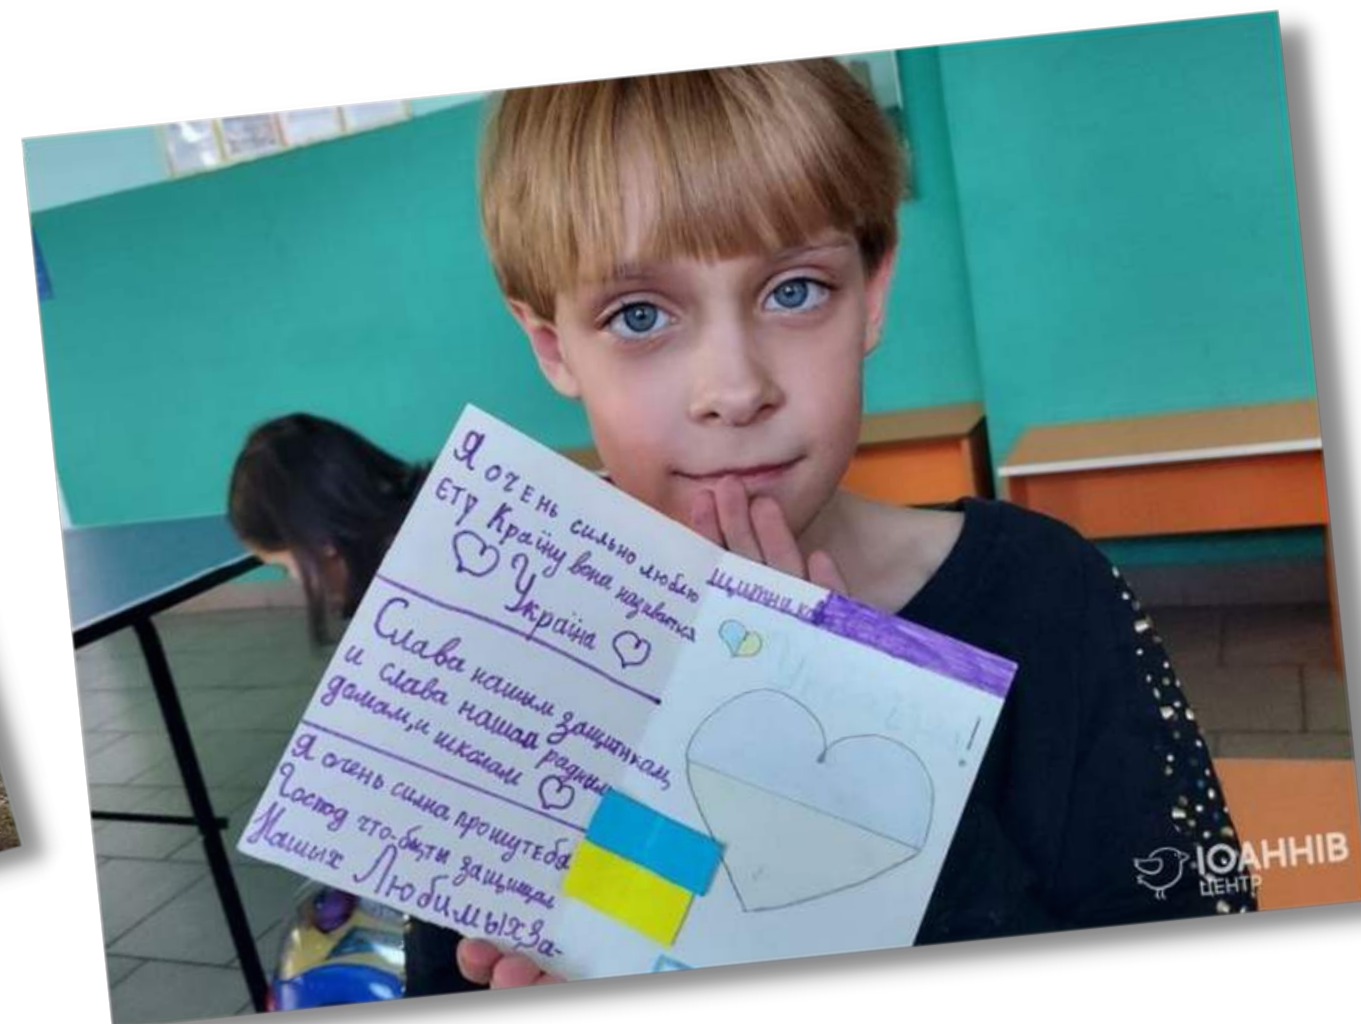

The support of clowns is especially important for them now when several times during the day all the children have to go down to the bomb shelters and wait there when the air strikes alarm will be over.

You can help  
the extraordinary  
and desperate Dnipro's  
team of hospital  
clowns using the bank  
transactions:
