THIS IS A BRIEF OF LETSEMA-COMSERVE

Letsema Comserve is based in Soshanguve ext 12 b. **Letsema** is a Non-Profit Organisation formulated in 2023 March. The organization first started with Man's Forum, which brought the men of the community together. We went on to introduce patrol in the area to eliminate crime and doing services like cleaning dumping sites, bushes etc. We managed to form support group from the forum to share challenges we are facing as Men In our life's. Letsema hosted events collaborating with Men's Health Forum, AkASOSHA Men's forum and old mutual to assist with socio-economy, financial wellbeing and sponsored by BOPANG Consulting's. We celebrated Father's Day with the community from our own pockets and raising funds. Since the forum was formulated, our areas are healthier than never.

Later we introduced **kidio's club** with the intent to teach the children about the dangers of using drugs and alcohol as they are one of the biggest problems in the community. Children from age 7 to 18 came to attend the first class which was so great. We went to look for posters of drugs and small books so that it can be formal. It escalated to helping them with schoolwork, listening to their challenges, donated some clothes, school bags and a lot to the children of community. We raised funds to cook for the children every Saturdays and Sunday after church.

Mr. Modisadia gathered the community and introduced tools for life to the community. We managed to form a great team as we worked together with the woman of the community, helping each other to do courses and managed to graduate. After that we introduced woman's forum which has brought a huge change in the community as well.

Letsema introduced Save The Children with skills development programs to the community. We organized youth to attend the Program and managed to have at least 51 youth members in the organization. We continued with the youth of the community and formed the executive structure. We are also doing skills with **Siyanqoba Skills development**. Letsema has been invited to collaborate with the local schools to address the students about the danger of drugs.

We have so much talent that can shape our country in different spectrums, without the effort from us who are daily affected and impacted by the challenges of young people is like waiting on a bomb to explode and expect great results, together we should strive to harness and cultivate the talent and use it to a greater advantage to us, with being said together we can do more, each of us needs all of us, it is through the availability of new and effective education that we can change the world, as Nelson Mandela said, education is the most powerful tool we can use to change the world.

Who are we?

Letsema-Comserve is a non-profit organization aiming to empower, equip, inspire, motivate, rehabilitate, and train young people to realize their potential and tap into the market with it; we provide high quality service with experience in our service, with sincerity and Ubuntu as part of our mission to change our communities into better communities.

Aiming to create social connections and a sense of community and creating an interest on issues and subjects that are affecting the communities at large,

Mission

Sensitizing about drugs and alcohol, assisting out with kiddos with school homework, teaching about spiritual principles and the defects of character, health education, the therapy of one child helping one another, praying to God as we understood him, the importance of visualizing your future and walking towards it together as a team, understanding the components of leadership from a young age.

Vision

To create over 10,000 young responsible young leaders in all the country, creating free drug communities, having our own community rehabilitation centers that are going to give and provide opportunities for our children to stay off drugs and become world class leaders.

Objectives

- To examine, highlight and correct injustice and inequalities related to gender in the Programme and to educate young people through our skills development programs.
- To provide health information and skills to the community through awareness campaigns.
- To keep the areas clean and crime free.
