## WHO WE ARE

Direct Impact Empowerment Foundation is a **dual-registered humanitarian NGO** operating across Nigeria and Switzerland. We walk alongside the people every other system has already passed by: the vulnerable, the forgotten, those who fell through every gap.

We move people from **crisis to sustained independence**, one life at a time, through our pilot-validated Dignity to Independence Programme. Every intervention is documented, accountable, and built on trust.

We are not a charity that sends packages. We are a **long-term presence** in the lives of those we serve.
