THE FOUNDER

RHIANA SPRING

HUMAN RIGHTS LAWYER
& EARLY AI ENTREPRENEUR

The UN called her innovation “one of the world’s best AI solutions”. The European Investment Bank named her “Europe’s Best Impact Entrepreneur”. Rhiana Spring is a UN AI School Expert Lecturer, UN AI for Good Award and President’s Award recipient, trained international human rights lawyer, early AI entrepreneur, and coder. Three years before ChatGPT even existed, she built a global AI to help end domestic violence, used by 51K+ people in 182 countries to date.

WHY NOW

PROVEN AT SCALE

Spring ACT has proven that ethical AI in crisis contexts can work, at global scale. The model exists. The moment demands it be scaled NOW. 25+ countries reached out and are on our waiting list. Most are in Europe.

A GLOBAL CRISIS UNRESOLVED

Post-pandemic domestic violence rates remain elevated worldwide. The window to build global, responsible infrastructure is right now – before irresponsible tools fill the gap.

EU AI ACT

The world's first binding AI regulation is live. Demand for ethical, human-centred, privacy-first AI in sensitive domains has never been higher, and supply is almost zero.
