

# FESTIVITIES IN THE VILLAGE PROJECT PROPOSAL

[cydd.org.tr](http://cydd.org.tr)

Festivities in the Village! is a project where university students within the body of ÇYDD aim to provide equal opportunities in education to village children all over Anatolia and act as role models for them.

University students and young people who are experts in their fields give various trainings to people in the villages who cannot reach the opportunities in the cities in socio-economic terms, and organize activities with them.

# Purpose of the Project

- Insufficient resources in terms of education and social activities in villages or neighborhoods compared to urban centers.
- Existence of families that do not have sufficient income to meet their education and socialization needs.
- Although the basic human rights, education and health, as well as social rights are guaranteed by the constitution, there are deficiencies in practice.
- People living in the village do not know their own rights
- People living in the village do not know the right farming and farming methods.
- Non-governmental organizations, which are the most important elements of democracy in all contemporary countries, are not sufficiently active in villages and neighborhoods outside the city center in our country
- Village and neighborhood people's inability to access cultural and artistic activities.

# General Objectives of the Project

- To identify the villages in accordance with the stated reasons and to create measurable value by carrying out activities in accordance with these reasons.
- To raise awareness among university students about solving social problems.
- To provide training primarily to children and women by experts or institutions in the areas where the project will be implemented.
- Developing permanent solutions to the problems of the village/neighborhood or the locals by cooperating with administrative chiefs, local governments, universities and other non-governmental organizations in the provinces where the project will be implemented.
- To make ÇYDD known in the places where the project will be implemented and to raise awareness of volunteering in non-governmental organizations.
- To identify children or young people in need who can benefit from the scholarship programs of ÇYDD and to provide scholarship support.
- Implementing the project in villages or neighborhoods for at least 5 days and making repeat visits to that village at regular intervals.

# Trainings given in the project

It should be aimed to organize at least one training/workshops in the fields below :

- Law,
- Health,
- Environment,
- Art and culture,
- Science and technology,
- Vocational Guidance.

The activities/trainings that have been or can be implemented in the villages are given below.
