**TOGETHER,
MAKING A
DIFFERENCE**

WHO WE ARE

We are a multidisciplinary team of more than 10 professionals from various fields, including agronomists, architects, sociologists, and business engineers, among others.

We are dedicated to creating community spaces through training sessions and hands-on workshops on sustainable construction, gardening, farming, and the environment.

OUR STORY

The Great Fire of Valparaíso (2014)

- Higher-quality construction.
- Community-based construction
- 8 projects in Valparaíso

The Minga Valpo Foundation is Established

- Construction of Community Centers
- Training
- Workshops

Rebuilding after the 2014 Fire

Family affected by the 2014 fire

WHAT DO WE DO?

We develop environmental education projects in collaboration with social organizations, public institutions, and the private sector, with the aim of improving the community's quality of life.

We use a learning-by-doing methodology in our training sessions and workshops, while also promoting connection with the natural environment and teamwork.

Greenhouse Project with the Witrapurán Indigenous Association

Our new challenge is to invite private-sector organizations in our region to work alongside us to improve the quality of life of children, young people, and adults, while continuing to educate and promote environmental protection in Concón and throughout the Valparaíso Region.

Woodworking Workshop

Designed for people of all ages and experience levels. In these workshops, participants learn how to design and build their own personal projects, starting with the basics of tool use, safety measures, material identification, and other essential skills.

Woodworking Fair, Irma Salas College, Concón

Students in the Woodworking Workshop

Woodworking Workshop

During our activities, we also take the opportunity to build community, share moments together, and incorporate fun, interactive breaks into each workshop.
