

# A Home Away From Home

Because no family should  
fight cancer alone—  
or far from home. ♥

We provide support, hope  
and a home away from home  
for children with cancer  
and their families.

## THE PROBLEM

When a child is diagnosed with cancer, many  
families must leave their homes to travel to  
San José for specialized treatment.

During weeks or months away from home,  
they face many challenges:

No place to stay

Difficulty affording food

High transportation costs

Need for hygiene supplies

Emotional and financial stress

their child's healing.
