

Earth Focus Network 101: The Global Onboarding

22/July/2026

The Home for Changemakers, Innovators, and Organizations Solving the Planet's Most Pressing Environmental Challenges.

The Fragmentation Problem

Time Wasted

Professionals spend countless hours searching for grants, jobs, and partnerships across multiple platforms.

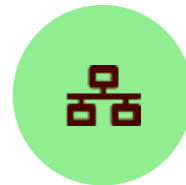

Missed Opportunities

Valuable grants, jobs, and collaborations go unnoticed due to fragmented information silos.

Invisible Organizations

Businesses and nonprofits lack visibility, making it hard to find clients, partners, or funders.

Fragmented Networking

Networking is scattered across platforms—no single space for real-time problem-solving.

"We cut the time spent searching and browsing for opportunities—and ensure you never miss them again."

Our Solution: A Unified Ecosystem

The Single Platform for Environmental Action

All-in-One Integration

We bring together funding, employment, and networking opportunities into a single, streamlined interface.

Efficiency First

By centralizing resources, we eliminate the need for jumping between multiple platforms.

Built for Impact

Every feature is designed to advance your environmental sustainability mission without the friction of traditional networking.

Who We Serve: A Strategic Alliance

Businesses & Social Enterprises

For-profit and non-profit entities with green products, services, or sustainable supply chains.

Philanthropies & Foundations

Grant-makers, impact investors, and family offices looking for vetted, high-impact projects.

Individuals & Changemakers

Scientists, activists, students, community organizers, and professionals dedicated to the planet.

Strategic Allies

Academic institutions, government bodies, and media houses are welcomed to strengthen the network.

Six Services, One Platform

Grant Board

Curated funding opportunities tailored to your sustainability mission.

Job Board

Sustainability jobs from around the world in one central location.

Business Directory

Showcase your green business to potential clients and partners.

Organizations Directory

Discover and connect with NGOs, nonprofits, and foundations.

Smart Matching

Algorithm-powered connections to the right partners and experts.

Networking & Learning

Real-time problem-solving through community discussions and events.

"All six services are integrated into one seamless platform—saving you time and increasing your visibility."

Our Uniqueness: Active Growth

CHALLENGE: TIME WASTED

Centralized Aggregation

We solve the search problem by bringing all environmental opportunities into one curated space.

CHALLENGE: MISSED LEADS

Direct Delivery

Curated grants and partnerships are delivered directly to you, ensuring you never miss a critical opening.

CHALLENGE: INVISIBILITY

Media Promotion

We use our internal media channels to actively showcase your work to a global audience of stakeholders.

CHALLENGE: COLD OUTREACH

Instant Connectivity

Smart matching replaces traditional networking with warm, relevant connections to the right partners.

We don't just connect you—we **actively grow your visibility** to increase your impact.

Current Position: Infrastructure & Momentum

Core Platform

OPERATIONAL

Fully developed digital ecosystem ready for global user onboarding and interaction.

Slack Community

ACTIVE

Integrated real-time communication hub for immediate member networking and support.

News Media

PUBLISHING

Dedicated website operating and publishing content to amplify environmental impact stories.

Global Reach

100+ MEMBERS

Growing interest from changemakers across continents, building a diverse global network.

"The infrastructure is built. Now we are building the community."

Future Vision: Scaling the Movement

● 2026

Launch & Initial Onboarding
Target: 100-200

Focus on official launch and the recruitment of high-impact founding members to establish the network's core.

● 2027

Expanding Community & Partnerships.
Targets: 200-300

Scaling through strategic global partnerships and outreach programs to diversify the ecosystem's resources.

● 2028

Target: 300–500 Active Members

Reaching a critical mass of vetted members to create a powerful, self-sustaining regenerative ecosystem.

"Every new member strengthens the network effect for global impact."

Your Onboarding Journey

STEP 01

Join Our Slack Community

Sign up on our Slack community to connect with fellow changemakers and start networking immediately.

STEP 02

Create Your Website Account

Set up your professional profile on the Earth Focus Network website to access all platform services.

STEP 03

Apply for Vetting

Submit your application for vetting. This ensures only serious, legitimate organizations join our network.

Why Vetting Matters

"We vet every member to avoid scams and ensure a trusted community. We are building a high-impact ecosystem—not just another social platform."

Impact-Driven Contributions

\$20/mo min

A Commitment to the Planet

\$20 is the minimum monthly commitment, equivalent to planting 20 trees. However, there is no limit—members are encouraged to contribute more to scale their global impact.

Scale your contribution, scale the results.

Reforestation

Direct funding for carbon sequestration and ecosystem restoration projects worldwide.

Support Farmers

Providing essential agricultural inputs and training for smallholder farmers in vulnerable regions.

Trip4Impact

Funding immersive field visits for members to witness and support local grassroots projects.

Global Ambassadors

**A Crucial Link in a Worldwide Chain of
Changemakers**

Amplify Grassroots Stories

Giving a global voice to local conservation efforts and showcasing real-world environmental impact.

Advocate for Sustainable Policies

Driving policy change and promoting sustainable practices within local and regional government bodies.

Inspire Local Communities

Mobilizing local action and encouraging communities to take meaningful steps toward a greener future.

"The climate crisis requires a unified, global response. Our ambassadors lead the way."

Ongoing Engagement: Events & Growth

Masterclasses

EVERY TWO WEEKS

Member showcases combined with expert-led training on critical sustainability and sustainability topics.

Monthly Onboarding

MONTHLY

Welcoming new members to the ecosystem and sharing the latest network updates and opportunities.

Annual Forum

ANNUALLY

A global gathering to share insights, celebrate collective wins, and strategize for the regenerative future.

"This is where **connections are made** and **solutions are built.**"

Join the Movement

"You are not just a member. You are a **co-creator** of a regenerative future."

The planet needs all of us. Earth Focus Network is a living ecosystem of people who refuse to accept the status quo. The time is now.
