

Emergency Fuel Assistance

Fuel Relief Fund (FRF) is the world's only charitable organization focused exclusively on free emergency fuel assistance in natural disasters and complex situations.

www.fuelrelieffund.org

OUR BEGINNING

In 2005 a group of volunteers, including Fuel Relief Fund founder and Board Chairman Emeritus Ted Honcharik, delivered fuel to emergency situations caused by Hurricanes Katrina and Rita.

From that experience, Ted founded FRF in California to provide free fuel in natural disasters and emergencies.

WHO WE ARE

Fuel Relief Fund is a nonprofit organization consisting of a highly skilled and trained operational volunteer team with fuel and emergency management backgrounds.

Since 2005, we have deployed on every continent except Australia and Antarctica. So far in 2025, we have assisted during the January LA Wildfires, distributing several hundred \$50 prepaid gift cards aiding over 660 families and the July 4th Texas floods, providing over 18,400 gallons of free fuel to the communities impacted.

OUR MISSION

Our mission is to reduce human suffering in the wake of natural disasters and during complex emergencies by addressing critical fuel supply and access challenges.

FUEL BENEFITS

1. First Responders

Our free fuel helps first responders reach those in need.

2. Generators & Trucks

Our free fuel helps generators keep hospitals operational, water purified and the lights on. Trucks are able to transport and distribute food and clean water.

3. Families

Our free fuel helps families cook and heat their homes to continue living their daily lives after a disaster strikes their community.

AT A GLANCE

RESOURCES PROVIDED

- Gas
- Diesel
- Propane
- Coal

GLOBAL REACH

- Over 25 deployments completed
- Over 100,000 people helped with free fuel
