Additional 2026 support has included diapers, wipes, hygiene kits, toothbrushes, toothpaste, menstrual products, personal-care items, household essentials, clothing, food, winter items and other necessities.

DIGNITY IN ACTION

A crisis rarely comes alone. A family facing housing instability or financial hardship may also be struggling with food, diapers, transportation, hygiene supplies, clothing or other essentials.

HFF responds with practical, compassionate support and connects people to trusted community resources when longer-term or specialized assistance is needed.

The goal is not simply to distribute an item. It is to relieve immediate pressure, preserve dignity and help create a stronger next step toward stability.

HOW RESOURCES REACH PEOPLE

Distribution and referrals have included school and community referral channels, partner organizations, HFF program sites, and direct outreach to individuals experiencing homelessness. This community-based model helps HFF extend its reach without trying to duplicate every specialized service.
