Activities taken-up in the last quarter

Health Checkup Camp for School Drop outs and their parents

A health checkup camp was organized at Delhi; the motto of this initiative was to do the health check-up to the migrant laborers and their children and find out their health problems. Adults and the children from the nearby community are mobilized for this health checkup camp.

35 adults and 43 children attended this health checkup camp. A group of 8 doctors and 14 nursing staff conducted health checkup and advised the participants on their health issues.

Students are given toys and books as give aways, this initiative motivated the students to go back and rejoin in the regular schooling system.

Special Digital Literacy Classes for Blind Students

Special digital literacy classes were conducted to the visually challenged students at Chennai (Southern part of India). Dropouts from Govt School blind school are trained by Learning Links Foundation on digital literacy by using some specially designed applications like JAZZ and NVDA.

Literacy classes for School Dropouts

Literacy classes for school dropouts are being implemented across all five locations in India (Delhi, Chennai, Hyderabad, Bangalore and Panchkula). These dropouts are oriented on reading, writing and arithmetic so that they can join regular stream of schooling and compete with other students in the school.
