Subject: KEX Kids Fund Application

Good Morning,

Thank you for this amazing opportunity to submit a KEX Kids application for a student of mine, Krystal

Krystal is a third grade student here at Joan Austin Elementary School and for a number of reasons, despite having failed her vision screenings in the past due to her myopia, has never actually secured a pair of eyeglasses.

When I told her about your program and explained that she might soon have a pair of her own special glasses, she was over the moon excited, and now it's practically all she talks about!

When I contacted Krystal's mother, Krystal's mother asked that I stress the importance of finding a place for the exam that is as close as possible to their apartment, as travel is a hardship for the family. So I'm passing that information along.

Thank you so much for the invaluable service you provide, and I look forward to hearing from you.

Sincerely,

Teresa
