**Subject:** KEX Kids Shout Out

Hi Paul,

Hope you are well...

I wanted to share this quote with you... and our Facebook post today.

Last week MHSP screened the sight and hearing of children in the Woodburn Public Schools. A 7th grade teacher at Valor Middle School where we screened 200 students for vision remarked:

“This technology is amazing! You are able to screen so many more kids and so much faster than before. It is wonderful and we are so grateful for what you do.”

Teachers also shared that “without the assistance of The KEX Kids Fund our students would not have the help they need!”

Thanks!

Best regards,  
Nicole
