

## KEX Voucher Thanks

I just got to deliver a voucher to a very excited 8th grade student today who actually got one last year but they broke over the summer. When he got his first pair his whole demeanor/confidence was lifted and his grades improved! Since the beginning of school he has still been using his piece of broken glasses to see the board at school. He holds them up to his eye like a monocle.

Long story short.....this kiddo is really grateful and I wanted to share that joy with you! I am including a pic of what he has been using.
