

Dear Kex

I want to say thank you so much for what you gave me. Thank you so much for the hearing aids I have. They have helped me hear better in school and specially with loud background my older hearing aid wouldn't do that. More than any thing I feel very blessed to have this financial support knowing that there is many children in the world that don't have these services. Thanks to the support I get.

I been wearing hearing aids since I was three month old. This has helped me be at a normal learning level. For that I thank all the support I have recieved.

Hector
