Our mission is to educate and inform the youth on global issues, inspire them to take action, encourage their participation in global issues, identify and build sustainable partnerships aimed at youth development and provide young people with tools and resources for effective action.

Our vision is to provide a ‘youthful voice’ that seeks to address the numerous challenges facing leaders of tomorrow by effectively using young resourceful minds to influence the course of global policy formulation and development in a consistent and harmonized manner.

Our philosophy is that through informing, inspiring, and engaging youth in learning partnerships, they will be inspired to get involved and take action to improve their local communities and change the world. YPWC in this direction, supports youth action, creates the platform for youth to translate what they have learned or desire to do into action while at the same time involving youth in decision making and key developmental and global issues.

Currently Youth Action Ambassadors (YAA) of YPWC can be found in Bangladesh, Ghana, Spain, Sierra Leone, and the United States of America. In general, we educate young people, inspire and assist them to take action now, help design programs that empower youth and advice them on how to implement action projects successfully. Additionally, we make sure that youth or a “youthful voice” are/is present at debates or meetings on key issues of today’s global order that affect young people. We are committed to making an impact in the lives of young people and the world as a whole.

Sometimes it falls upon a generation to be great.
YOU CAN BE THAT GREAT GENERATION.
Let your greatness blossom. Make poverty history. Then we can all stand with our heads held high.
- Nelson Mandela

Young People We Care (YPWC) is a registered youth-led, non-profit organization that is headquartered in Ghana and has satellite offices in the UK, Canada and USA. The organization is operated by young people (ages 15–30) and adult allies working on youth and development related issues worldwide.

Day in and day out, together with young people and other interested people around the world, we are making a difference at our local level and ultimately changing the face of the world gradually. In the past years, Young People We Care (YPWC) has engaged youths in spearheading education on the MDGs and related matters such as; migration whose impact on the youth continue to boggle the minds of policy makers. We do this through responding to calls to involve youth in global events or through our own initiated events.
