

REPORT – APRIL – MAY – JUNE 2019

## FUNDACION OIR ES VIVIR ... DOING GREAT!!!!

Hearing is vital for language development and good performance in school.

It is important to ensure that in early years of life and schooling, children's social and cognitive development is not impaired by undetected hearing loss or temporary issues such as earwax or objects in the ear canal.

On the day of Good Deeds we held our first hearing health event of 2019, performing hearing screenings for children and employees of MELO & CO.

## INTERNATIONAL NOISE AWARENESS DAY

This year we're celebrating International Noise Awareness Day in a different way. We've challenged schools to take a group photo and share it via our social networks. Many schools participated, with the Brader School of Panama winning the challenge.

To ensure health hearing for our children, we continue to visit the following schools:

Cleverest Early Education Center

## **Our mobile exam program continues to benefit hundreds of children!**

With the support of MINISTERIO DE DESARROLLO SOCIAL we will perform hearing screenings for over 2,000 children at public schools. We'll be performing screenings with the assistance of UDELAS students.

Additionally, we have a program to clean children's ears in cases of physical obstruction, such as earwax buildup. This program is made possible through the support of Dr. Moreno, UDELAS students, and Tom Pritsky, a summer intern for FOV from Stanford University.

**We continue to conduct language therapy at our integral center.**

Here's us performing language therapy at CISA, which we offer on weekdays from 8:00am to 5:00pm and Saturdays from 8:00 am to 12:00pm.
