A. Organisation Profile

1.0 History

Vikash, established in 1986, has become a leading Non-Government Organization in Odisha, working towards achieving sustainability in Developmental Pursuits and Protection of Right of people. Vikash believes that development can take place with the communities' own efforts and that Vikash only needs to facilitate the process. It believes in the strength and power of the people - the toughest task is only to make the community realize and explore their own strengths. With an innovative approach to development, Vikash tries hard to help people to help themselves without imposing any development programmes on them. In the process, Vikash intends to strengthen and support community structures and local institutions. Vikash believes in human initiative, strength and innovativeness, rather than on charity.

Vikash believes "small is beautiful" but at the same time we realize that small things can perish without making much contribution to the whole. Like streams coming together to form a river, the growth of great civilizations come from a network of small initiatives - their overall joint effort realizing more significance. Here at Vikash, we have designed our line of action to work in large areas while maintaining the beauty and sanctity of small things.

With a strong determination to serve the people in need, Vikash spreads its activities in 14 districts of the State. With time spreads its wing to infinite, Vikash dreams to spread its initiative beyond the boundaries made by man. We the people of Vikash, sure, we will succeed. We will be happy, one day, about our contribution to the development of society.

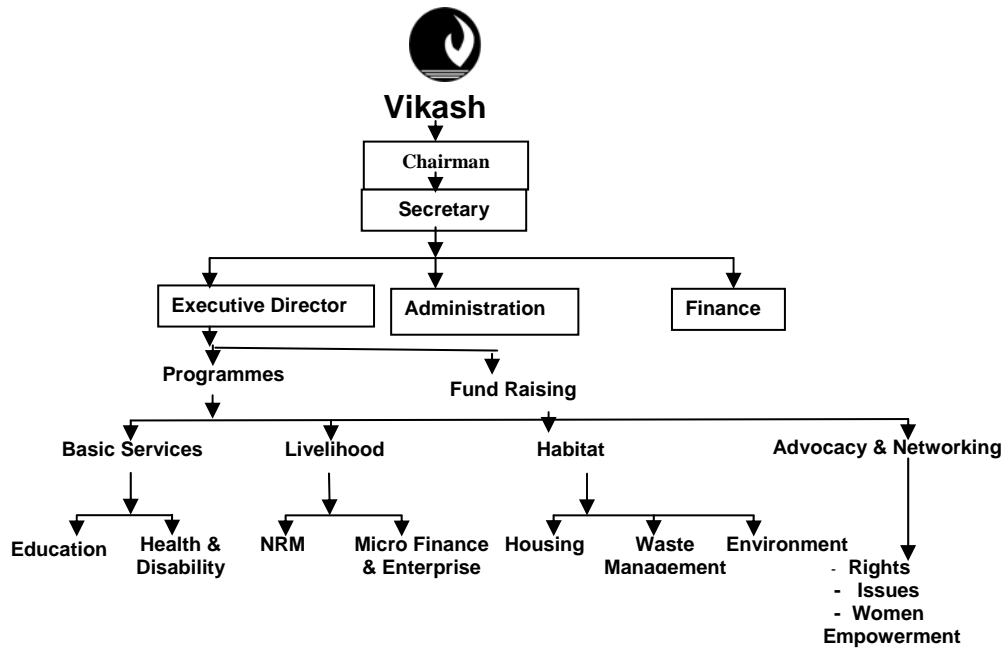

2.0 Core Values

- Quality
- Integrity
- Non-communal
- Punctuality
- Loyalty (Commitment to the cause and the organization)
