Sickle Cell Patients have Accepted their Fate.

- "Acceptance of what has happened is the first step to overcoming the consequences of any misfortune." -- **William James**
- Patients diagnosed with sickle cell disease have accepted the fact about this brutal reality.
- Their survival fight also demands for acceptance in the society in terms of making their life easy.
- We can contribute a bit by giving them quality life with good medication, food and counselling.

2175	484	165	223	96

1. During Jan to March 2017 total two major screening camps were conducted . In January 99th major camp was organized at Nandurbar and Chopda centers from Jan28 to 31 Jan 2017.
2. Second camp which was 100th sickle cell camp was conducted from 26 Mar to 29th March 2017.

Free medications were distributed to 2175 patients for 60 days.

Need Contributions and Donations

- Tribal and Poor Patients are most affected
- Lack of quality food and medicines make their condition worst.
- Donations are used effectively to provide them free medications, nutritional supplements and counseling / check up by expert doctors team every two month.
- Your help is valuable!!!
