

You're Building Dreams...

For many years I have been telling you the "Very Best Is Yet to Come!" and now something truly remarkable is happening and it is all because of you.

In June, I attended our ground breaking ceremony for The Nyaka AIDS Orphans Project Vocational Training and Secondary School. Attending this monumental ceremony were donors, volunteers, community members, grandmothers, students, and dignitaries.

Our Country Manager and I truly wish you could have been there to feel the excitement and pride that buzzed in the air!

As I explained to our grannies, students, and the Nyaka community at-large, our village isn't special ~ there are any number of areas in this world where people are poor and in need. What makes Nyaka special is you...you are special.

You have loved, cared for, and supported the education of a group of children orphaned at a tender age. You have lifted up thousands upon

thousands of grannies by giving them access to micro-funds. You have helped these unsung heroes care for many orphaned children under their care.

In partnership with GlobalGiving you have built two primary schools, a medical clinic, two libraries, two clean water systems, hundreds of granny homes, pit-latrines, and kitchens; supported Desire Farm, clothed and educated over 650 students, and now you are building our very own secondary school! We hope you enjoy the enclosed pictures and feature about this monumental project. We also hope that you will get involved in a very meaningful way by continuing to support our project and telling your friends about our students and grannies. We have enclosed an envelope or you can visit www.nyakaschool.org to make an inspiring gift today!

Thank you for making this year the very best yet.

You are building dreams each and every day in the small villages of Nyakagyezi and Nyakashenyi.

You are saving the lives of orphaned children and their elderly grannies.

With Humble Gratitude,

Twesigye Jackson Kaguri
